Canada 

The Trade Commissioner Service helps Canadian businesses grow with confidence by connecting them with our funding and support programs, international opportunities, and its network of Trade Commissioners in more than 160 cities worldwide.

Le Service des délégués commerciaux aide les entreprises canadiennes à se développer en toute confiance en leur donnant accès à nos programmes de financement et de soutien, à des débouchés internationaux et à notre réseau de délégués commerciaux dans plus de 160 villes du monde entier.

The 50, a collaboration between the Canadian Venture Capital & Private Equity Association (CVCA) and the Trade Commissioner Service (TCS), is an annual online guide to the Canadian venture capital (VC) ecosystem and features 50 of Canada's VC firms. The aim of The 50 is to showcase members of the CVCA to foreign Limited Partners (LPs), expanding the global network of Canadian VC funds and building investment interest in Canada. Since the publication will be released annually, the spotlighted VC firms will be updated each year.

Leveraging the international network of Canadian Trade Commissioners abroad, The 50 is circulated to foreign investors through the TCS, which has a presence in over 160 cities worldwide.

Message from Kim Furlong

Welcome to the fourth edition of The 50, an annual guide offering a comprehensive look into Canada's venture capital ecosystem. Designed to highlight the depth and potential of the industry, The 50 serves as a resource for understanding the players, trends, and opportunities shaping the future of innovation in Canada.

The past year has highlighted the strength of Canada's venture capital sector. As of Q3 2024, Canadian VCs invested CAD \$6.5 billion across 426 deals year-to-date, showcasing the industry's ability to adapt in a global environment. In Q3 alone, \$2.6 billion was invested across 130 deals, driven by a record-breaking \$1.24 billion Series F, for Canadian legal-tech company, Clio. These numbers underscore the steady growth of Canada's entrepreneurial ecosystem and the continued global confidence in the innovation and expertise of Canadian entrepreneurs.

Canada's success stories—whether in cleantech, life sciences, or information and communication technology—continue to drive international attention. We've solidified our place as a global leader in key industries, earning a global reputation as an AI powerhouse and standing out for our commitment to sustainability and innovation. By Q3 2024, the cleantech sector had raised \$980 million year-to-date, while life sciences companies secured \$939 million across 98 deals, both of which reflect the diversity and strength of Canadian innovation.

These achievements are a testament to the strength of Canada's venture capital ecosystem, supported by a diverse network of innovative entrepreneurs, world-class research institutions, and a talent-rich workforce. Canada's unique advantages—ranging from a thriving AI and cleantech sector to its strong track record of returns and successful exits—have solidified its reputation as a global leader in innovation and investment.

Canada's venture capital ecosystem stands out as a hub for unique investment opportunities. With a robust early-stage pipeline, a stable regulatory environment, and access to global markets, the country offers a strong foundation for growth. This foundation is bolstered by a collective commitment across the ecosystem to empower Canadian entrepreneurs, ensuring that Canada remains a competitive and influential driver of global innovation and economic growth.

As you explore this edition of The 50, you'll find stories of innovation and collaboration that highlight the unparalleled potential of Canada's VC ecosystem. This is a vibrant and dynamic landscape, ready to welcome international partners to invest, collaborate, and grow alongside us.

Here's to another year of growth and impact for Canada's venture capital industry.

Chief Trade Commissioner and
Assistant Deputy Minister,
Global Affairs Canada

Message from Sara Wilshaw

I am pleased to present the fourth edition of *The 50: A Guide to The Canadian Venture Capital Ecosystem*. This flagship publication continues to highlight Canada's dynamic venture capital (VC) landscape, showcasing investment opportunities and profiling some of Canada's exceptional VC funds, especially those involved in international fundraising. The featured firms exemplify the strength, breadth, and growth potential of Canada's VC community.

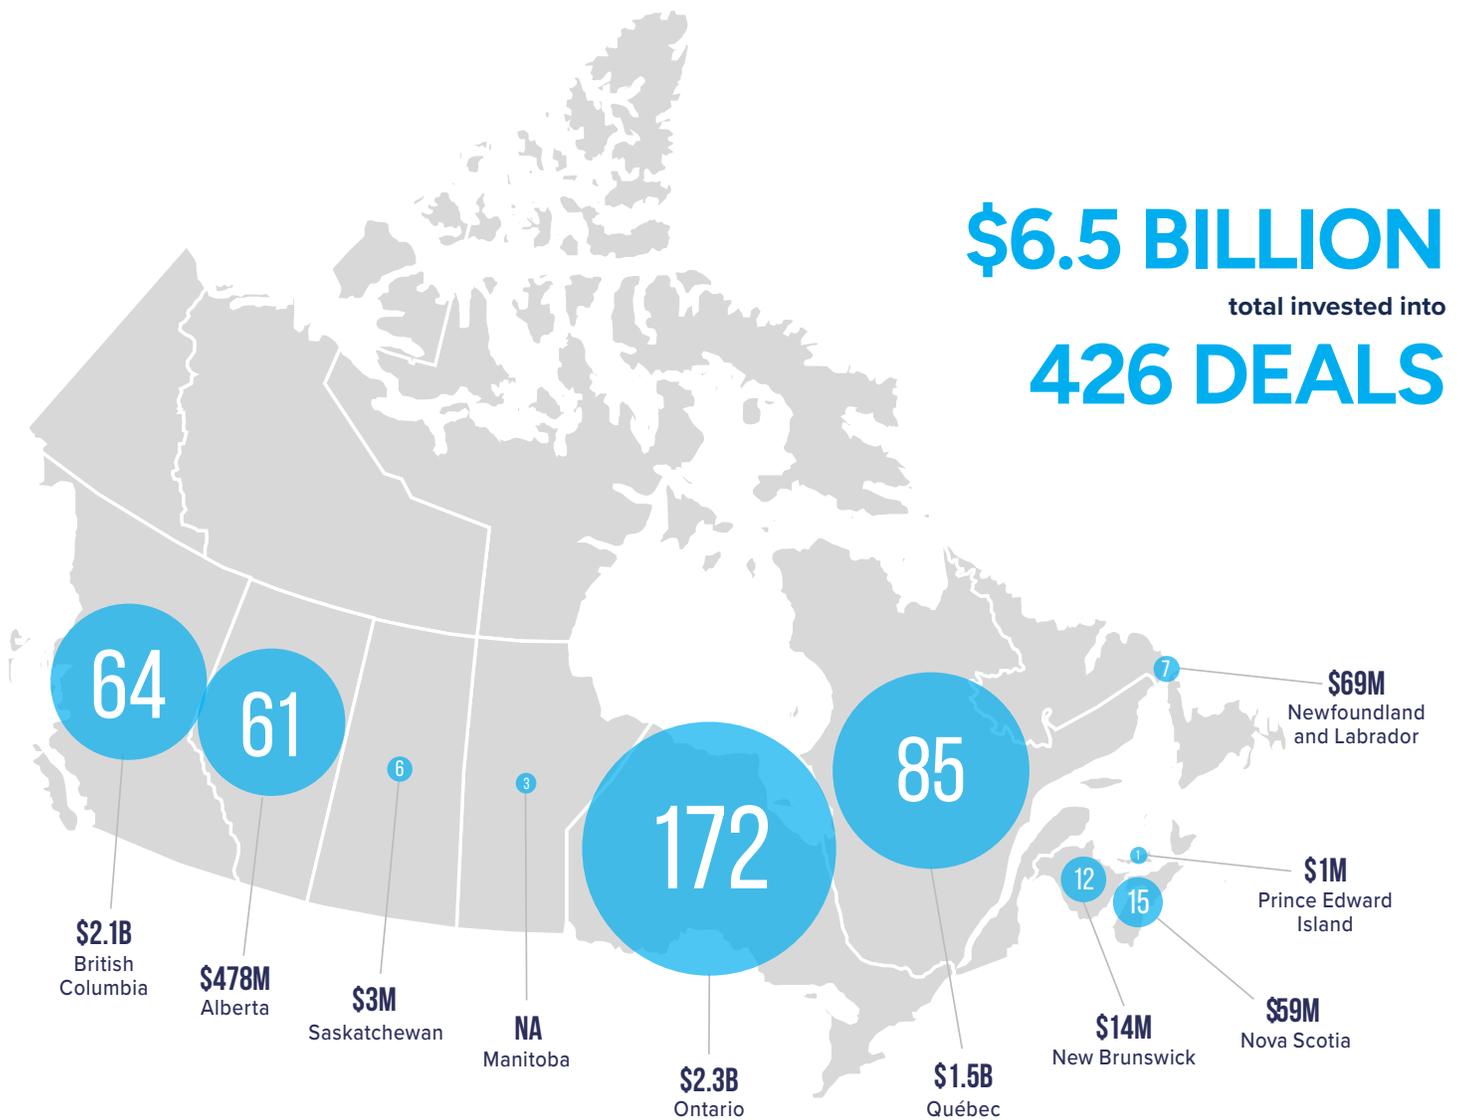

The Canadian Trade Commissioner Service (TCS) highly values its longstanding collaboration with the Canadian Venture Capital and Private Equity Association (CVCA) and all our partners within the Canadian VC ecosystem. As part of the Government of Canada's commitment to fostering innovation and supporting Canadian businesses in international markets, the global network of the TCS plays a key role in promoting Canada as a world class destination for financial investment and foreign capital for VC funds. Our Trade Commissioners in over 160 cities worldwide work closely with clients to provide in-depth market intelligence and facilitate strategic introductions that maximize innovation, commercialisation, investment, and market access opportunities for Canadian businesses.

I encourage you to explore Canada's VC ecosystem and the firms profiled in this publication. For further support, our [Trade Commissioners](#) in Canada and abroad are at your service.

We look forward to working with you!

Snapshot of Canada's VC Ecosystem

YTD Q3 2024

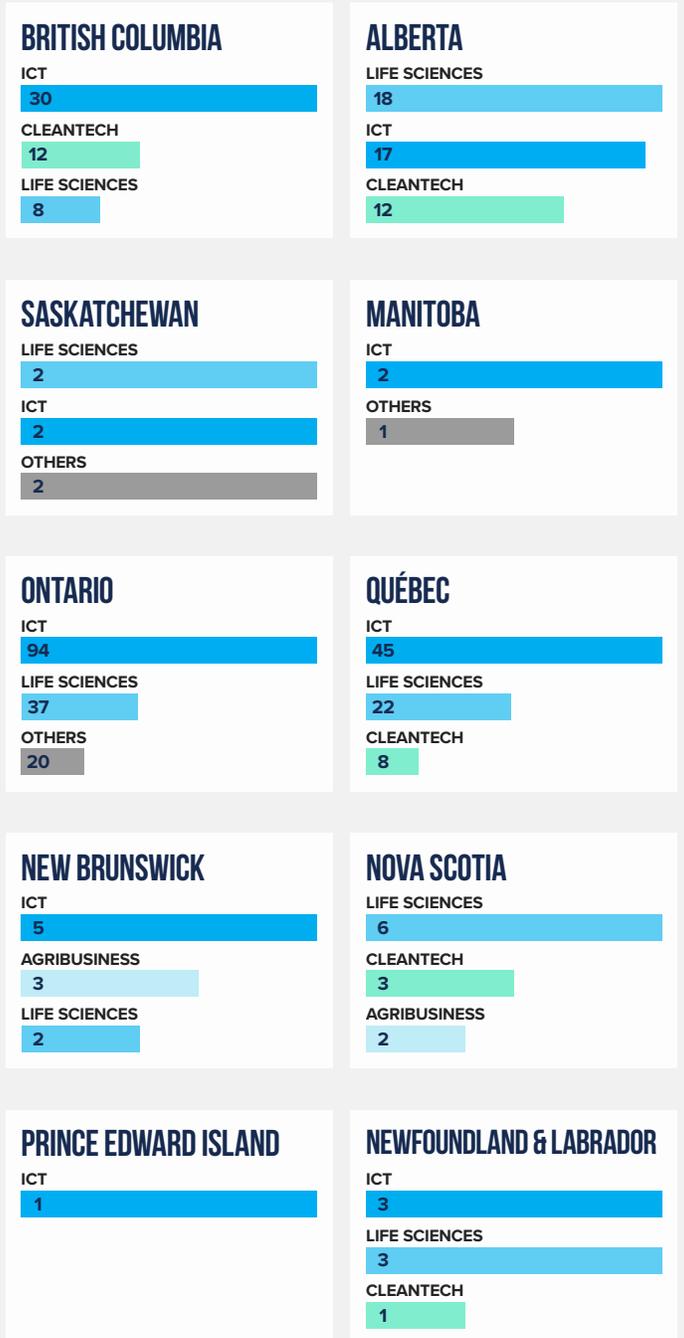

Following a robust Q3, BC has rejoined Ontario and Québec as one of the top three provinces for VC investment activity in 2024, overtaking Québec for second place in dollars invested for the first time since 2021. Together, these three provinces accounted for 90% of all dollars invested YTD Q3 2024. Year-over-year, Québec and BC have already exceeded their 2023 investment totals, while Ontario remains on track to match its 2023 investment levels.

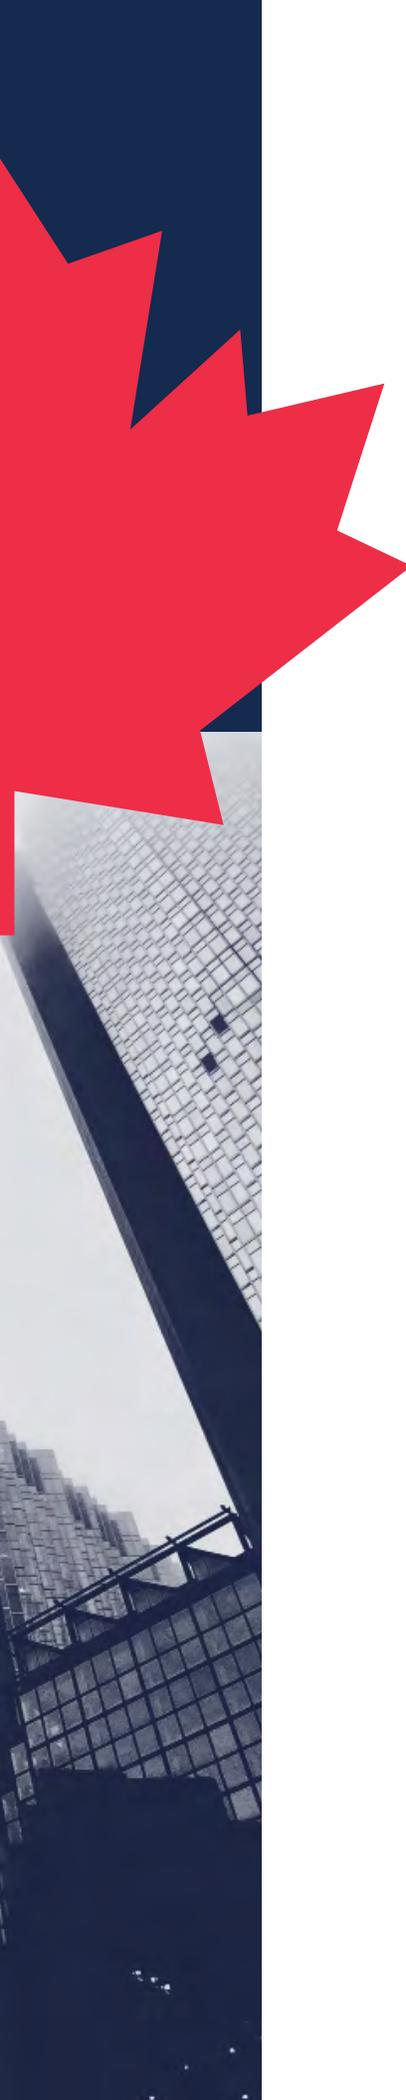

TOP SECTORS PER PROVINCE BY NUMBER OF DEALS

Ontario led overall investment activity YTD Q3 2024, representing 40% of all deals and 36% of total dollars invested in Canada, with three of the top ten largest disclosed deals totaling \$1B occurring in the province. Québec followed as the second most active, contributing to 20% of all VC deals with 85 transactions resulting in \$1.5B in investments.

Following a two-year decline and a slow start in 2024, British Columbia rebounded strongly in Q3 driven by three mega deals, placing the province ahead of Québec in total dollars invested. By the end of the first nine months of 2024, BC secured \$2.1B across 64 deals, making up 32% of Canada's total investment value and 15% of all deals, largely driven by Vancouver's \$1.9B across 48 deals. The largest disclosed deal in Canada was closed by Vancouver-based legaltech company [Clio](#), which secured a [\\$1.2B growth round](#) backed by U.S. and Canadian investors—contributing 47% of Q3's total investment value.

Investment activity in Atlantic Canada remained steady, with Newfoundland and Labrador leading the region by raising \$69M across 7 deals. Nova Scotia followed with \$59M across 15 deals, and New Brunswick secured \$14M from 12 deals.

Bridging Innovation: Canada's Public-Private Partnerships

Public-private partnerships have been instrumental in Canada's economic strategy, bridging government initiatives with private-sector investments to drive innovation and growth. Nowhere is this more evident than in Canada's venture capital ecosystem, where strategic collaboration has bolstered the development of high-potential businesses and positioned Canada as a leader in fostering innovation.

The Venture Capital Action Plan (VCAP), launched in 2013, marked a turning point for the sector. Designed to address the lack of venture capital availability in Canada, VCAP attracted over \$1.4 billion, with \$1 billion sourced from private-sector investors such as pension funds and corporations. These funds supported a new generation of innovative companies, strengthening Canada's reputation as an emerging hub for tech and innovation. The Canadian Venture Capital and Private Equity Association (CVCA) played an essential role in advocating for and shaping this initiative, ensuring it met the needs of both investors and entrepreneurs. VCAP's success provided a sustainable foundation for the venture ecosystem, demonstrating the power of public-private collaboration.

Building on this momentum, the Venture Capital Catalyst Initiative (VCCI) was introduced in 2017, committing an initial \$400 million to further stimulate private-sector investments. This program successfully attracted over \$1.76 billion in capital, with approximately \$1.4 billion coming from private investors, underscoring the effectiveness of public-private partnerships in driving venture capital growth. In 2021, the government renewed VCCI with an additional \$450 million over five years, aiming to inject at least \$1.5 billion into the market when combined with leveraged private and other public capital. This renewed phase introduced new priorities, including a focus on life sciences and inclusive growth, ensuring greater accessibility for underrepresented entrepreneurs while continuing to drive innovation across core sectors such as ICT, cleantech, and health sciences.

While VCCI is still deploying funds under its renewed mandate, early signals suggest it is continuing to build on its momentum in mobilizing private capital to complement public investments. These efforts are expected to inject significant funding into Canada's innovation ecosystem, supporting a diverse portfolio of high-potential companies and aligning with global investor priorities.

By combining the stability of public funding with the agility of private capital, Canada's venture capital strategy stands as a model of collaboration and impact. This approach not only offers significant opportunities but also showcases the country's dedication to bolstering a leading innovation economy.

VCAP/VCCI Fund of Fund Managers

HarbourVest is an independent, global private markets firm with 40 years of experience and more than \$132 billion assets under management as of June 30, 2024. Our interwoven platform provides clients access to global primary funds, secondary transactions, direct co-investments, real assets and infrastructure, and private credit. Our strengths extend across strategies, enabled by our team of more than 1,150 employees, including more than 230 investment professionals across Asia, Europe, and the Americas. Across our private markets platform, our team has committed more than \$59 billion to newly-formed funds, completed over \$53 billion in secondary purchases, and invested over \$39 billion in directly operating companies. We partner strategically and plan our offerings innovatively to provide our clients with access, insight, and global opportunities.

Kensington Capital Partners is a leading Canadian alternative assets manager with over 25 years of experience. Founded in 1996, and with offices in Toronto, Vancouver and Calgary, Kensington has invested more than \$2.6 billion to date. Kensington operates a highly diversified strategy across the private markets, investing in venture capital, growth equity and mid-market buyouts. Kensington also employs a hybrid approach by combining direct investments and co-investments with a fund-of-funds program. The approach is based on the belief that there are strong upside opportunities across the private markets, but the additional risk in these investments can be effectively managed through diversification. As a result, Kensington's active management approach and relationship-based business has generated top quartile returns for investors.

Northleaf

Northleaf Capital Partners is a global private markets investment firm with more than US\$27 billion in private equity and venture capital, private credit and infrastructure commitments raised to date from public, corporate and multi-employer pension plans, endowments, foundations, financial institutions and family offices. Northleaf's team of 275 professionals, located in Toronto, Chicago, London, Los Angeles, Menlo Park, Melbourne, Montreal, New York, Seoul, and Tokyo, is focused exclusively on sourcing, evaluating and managing private markets investments globally. Northleaf is one of Canada's most active venture capital investors and has played a leadership role in the development of many successful venture capital / growth equity funds in Canada. Northleaf has been making direct investments in later-stage and high growth Canadian companies since 2008, leveraging its well-established relationships with leading fund managers, institutional investors and entrepreneurs.

Teralys Capital is a private fund manager financing private venture capital funds investing in innovative businesses in information technologies, life sciences, and clean or industrial innovations. Our partner funds cover the entire investment spectrum from early-stage start-ups to expansion, growth, and technology buy-outs.

With \$2.5B in assets under management across 5 specialized venture capital fund-of-funds and 2 additional legacy portfolios of funds, Teralys is the largest innovation-focused investor in Canada. Teralys has been supported since inception in 2009 by a growing local and international LP base. We also invest internationally, not only to benefit from favorable returns from established markets abroad, but also to support our leading technology funds and entrepreneurs here at home by extending their international reach and bringing back best practices from around the globe.

VC Investment Arms of Federal Crown Corporations

BDC Capital is the investment arm of BDC, Canada's Business Development Bank. With over \$8 billion under management, BDC Capital serves as a strategic partner to the country's most innovative firms. It offers businesses a full spectrum of capital, from seed investments to growth equity, supporting Canadian entrepreneurs who have the ambition to stand out on the world stage.

As Canada's most active venture capital investor, BDC Capital is actively investing through its early-stage venture capital funds like the Seed Venture Fund, Thrive Venture Fund, Sustainability Venture Fund, Deep Tech Venture Fund, Industrial Innovation Venture Fund and Climate Tech Fund, as well as its late-stage Growth Venture Fund and Growth Equity Partners Fund. It also invests under Thrive Lab, a dedicated initiative to support women-led, impact-driven businesses.

In addition, its Fund Investments team plays a leadership role in the industry by investing in worldclass Canadian venture capital and private equity funds.

BDC Capital also manages the Venture Capital Action Plan (VCAP) and Venture Capital Catalyst Initiative (VCCI) on behalf of the Government of Canada and continues to deliver on its ambitious mandate to support and significantly impact the Canadian venture capital and innovation ecosystem.

Export Development Canada (EDC) is a financial Crown corporation that is dedicated to helping Canadian companies increase their share of international business opportunities. We provide specialized international trade solutions along with the financial products and knowledge Canadian companies need to confidently enter new markets, reduce financial risk and grow their business as they go from local to global.

Through EDC's Investment Matching Program, we support Canadian companies through direct equity investments, co-investments and investment fund commitments. Managed by a dedicated team, we invest independently or in partnership with institutional investors under standard industry terms, conditions and return expectations. Our investments range across an array of sectors, with an emphasis on cleantech and inclusive trade.

EDC's goal is to enable Canadian companies to execute on their growth plans and build a more prosperous, stronger and sustainable economic future for all Canadians.

Provincial VC Investment Arms

Alberta Enterprise Corporation (AEC) promotes the development of Alberta's venture capital industry by investing in venture capital funds that finance technology companies. AEC focuses on funds that have a strong commitment to Alberta – including a full-time presence in the province. In addition to financial capital, AEC supports Alberta's venture capital ecosystem by connecting investors, entrepreneurs, and experienced technology executives who share our passion for building a bright, innovative Alberta. As of September 2024, AEC has committed C\$400.1 million for investment to thirty-eight venture capital funds, covering a diverse range of forward-looking industries including information technology, energy and industrial technology, and life sciences.

Bioindustrial Innovation Canada (BIC) is Canada's sustainable chemistry business accelerator focused on providing critical strategic investment, advice and services to business developers with clean, green and sustainable technology. Through its Sustainable Chemistry Alliance Investment (SCA) Fund, BIC invests in early-stage companies, and since its inception has invested \$25 million in 35 companies, leveraged over \$400 million in third-party investment, supported the creation of over 5,000 jobs for Canadians and the reduction of over 1 megaton in CO2 emissions through its portfolio companies.

BIC is focused on enabling Canada to become a globally recognized leader in sustainability by investing in companies that:

- convert renewable biomass resources into value-added bioenergy, biofuel, biochemical and biomaterials
- efficiently use the world's limited resources through innovative technologies
- recover and reuse the world's limited resources within the circular economy

for use in a multitude of commercial applications along the chemistry value chain to advanced manufacturing including automotive and aerospace.

BIC's technical expertise and market knowledge make it the perfect partner for due diligence efforts related to early-stage green and sustainable technologies.

InBC Investment Corp. (InBC) is a strategic investment fund created by the Province of British Columbia (B.C.) with \$500 million to invest in growing companies and venture funds. It is investing to generate financial returns alongside economic, social or environmental impacts for B.C. InBC's investments are fueling the growth of B.C. companies, helping to drive economic growth, create jobs and boost innovation in the province.

InBC invests alongside other investors in private B.C. companies that are ready to scale up, as well as in venture funds that are committed to investing in B.C. companies. Companies and funds benefit from having a local source of capital based in B.C., a patient investor with longer term horizons for expected

expected returns and a partner that understands the value of both profit and impact.

InBC is building a robust and diverse portfolio supporting innovative companies across a range of sectors, industries and economic regions of B.C. The fund is investing \$500 million over the next several years and returns generated will be reinvested to support more B.C. companies.

A business development agency created in 2022 through the merger of Innovacorp and Nova Scotia Business Inc, Invest Nova Scotia's mandate is to help companies across the province – from start-ups to expansion – develop and succeed. The agency manages several programs aimed at helping start-ups raise capital, scale, and commercialize new technologies.

A key initiative is the Nova Scotia First Fund, a venture capital fund providing early-stage financing to companies with high-growth potential. The Fund supports companies at the pre-seed and seed stages and invests as a limited partner in Canadian venture capital funds. Since its launch, the Nova Scotia First Fund has invested more than \$140 million in start-ups and venture capital funds.

In addition to venture capital, Invest Nova Scotia offers incubation, acceleration programs, and expert advice to help start-ups commercialize their technologies. Invest Nova Scotia's goal is to help Nova Scotia's high-growth companies succeed in the global marketplace through strategic investments, resources, and collaboration with other investors.

With almost \$15B of managed portfolios, Investissement Québec plays an active role in Québec's economic development by supporting the creation and growth of businesses of all sizes with investments and customized financial and support solutions.

As a major player in Québec's venture capital markets, Investissement Québec invests directly and indirectly in Québec businesses that develop innovative, forward-looking projects. It contributes to the growth and innovation of promising young companies. As the sponsor and manager of several investment funds, Investissement Québec also contributes to the financing of high-potential businesses by providing access to specialized support services.

In terms of support, the Corporation assists businesses by providing consulting services and other measures, including technological assistance. In addition, through Investissement Québec International, the Corporation prospects for talent and foreign investment, and assists Quebec businesses with export activities.

The Manitoba First Fund was established to facilitate access to capital for Manitoba businesses with the aim of fostering the development, growth, and success of the province's economy and communities, thereby creating opportunities for Manitoba. Launched in 2023, Manitoba First is a \$100 million Fund of Funds that exclusively invests in other funds committed to investing in Manitoba businesses. It does not make direct investments in individual enterprises.

Manitoba First Fund partners with other funds by providing capital as a limited partner in those funds

or sub-funds. The Fund seeks to collaborate with funds that agree to match its contributions, meet its requirements, and subsequently invest the combined committed capital directly in Manitoba businesses. These partnered funds are expected to adhere to their own established and independent investment guidelines when making investment decisions.

The combined capital is intended to assist Manitoba enterprises at all stages of development in accessing new capital to promote innovation and growth. Ultimately, our objective is to provide capital

MaRS IAF

Launched in 2008, MaRS Investment Accelerator Fund (IAF) has grown into one of Canada's most active early-stage venture capital funds. With a deep commitment to Ontario's innovation ecosystem, MaRS IAF is a multi-sector fund, providing the capital, mentorship and networks needed to build world class companies. Initially funded by the Ontario provincial government, it has now become self-funded and is an evergreen fund. Since inception, MaRS IAF has invested over \$96 million in more than 190 companies that have raised a combined \$2.2+ billion in funding. Current assets under management exceed \$125 million.

MaRS IAF bridges a critical gap in early-stage funding and plays an important role as a catalyst for later-stage funding of promising technology companies by leveraging its domain expertise and its deep ecosystem networks. The firm is committed to investing in emerging areas across a broad spectrum of industries, encompassing enterprise software, health tech, clean tech and deep tech.

NBIF

The New Brunswick Innovation Foundation (NBIF) is an evergreen pre-seed and seed-stage venture capital firm based in New Brunswick. NBIF is driving the growth of the province's tech sector by strategically investing in the creation and scaling of innovative New Brunswick companies.

A \$100 million fund, NBIF focuses on two core objectives:

1. **Direct Investment** – Investing directly in innovative companies at the pre-seed and seed stages.
2. **Funds-of-Funds Approach** – Investing in complementary venture capital funds to attract additional capital to the province, expand the network of co-investors and support portfolio companies.

In addition to its investment activities, NBIF offers a comprehensive support system and funds a network of acceleration and incubation programs to further strengthen the startup ecosystem.

Recently, NBIF implemented four key investment impact objectives to propel New Brunswick toward sustainable growth and shared prosperity. By fostering innovation, NBIF aims to ignite transformative change and build a stronger economic future for the province. Its investment horizon extends beyond short-term returns, focusing on long-term sustainability and generational impact. NBIF is dedicated to ensuring the benefits of its investments reach all corners of the province, including underrepresented groups and regions.

Established in 2003, NBIF currently has over \$37M invested across 74 portfolio companies and is invested in six venture funds across Canada.

Venture Ontario, the venture capital agency of the government of Ontario, was created to promote and develop the venture capital sector in Ontario, so that more high-potential venture capital funds and technology companies have access to the capital needed to grow and prosper. The principal business of Venture Ontario is to develop and manage the venture capital investment portfolio on behalf of the Government of Ontario. Venture Ontario's investment activities have resulted in over \$500 million invested in VC funds and high-potential technology companies. Venture Ontario's venture capital investments have supported globally recognized, market leading companies such as Shopify and ecobee.

Canadian Venture Capital Performance

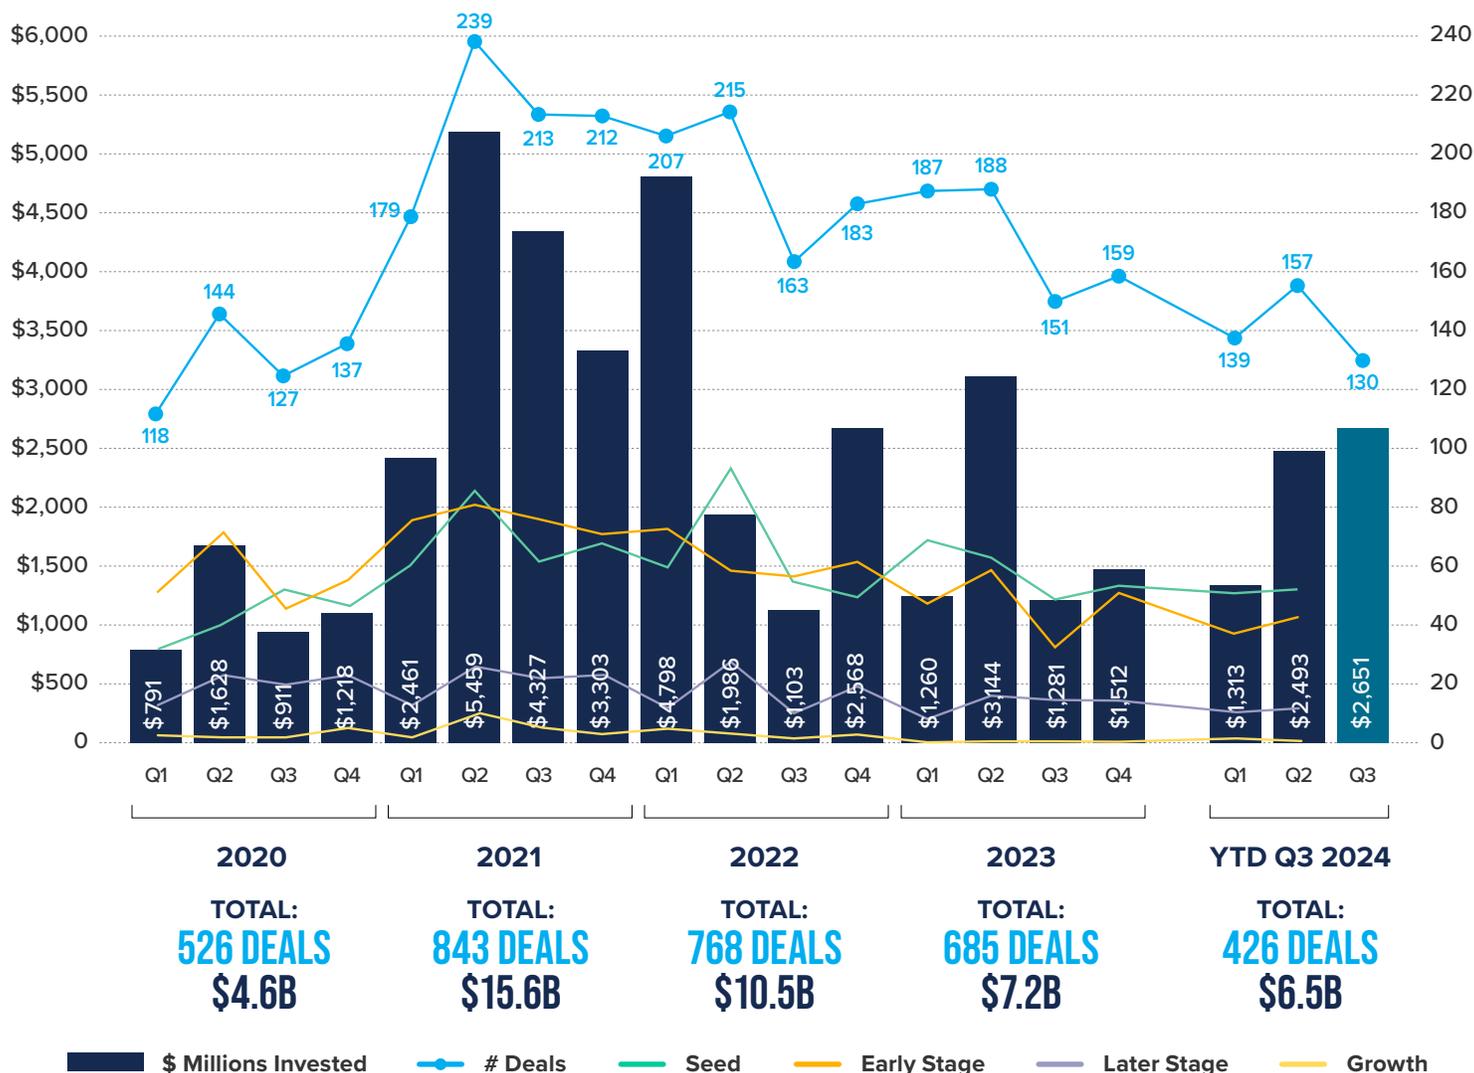

YTD Q3 2024

Venture Capital Activity

Quarter over Quarter

YTD Q3 2024

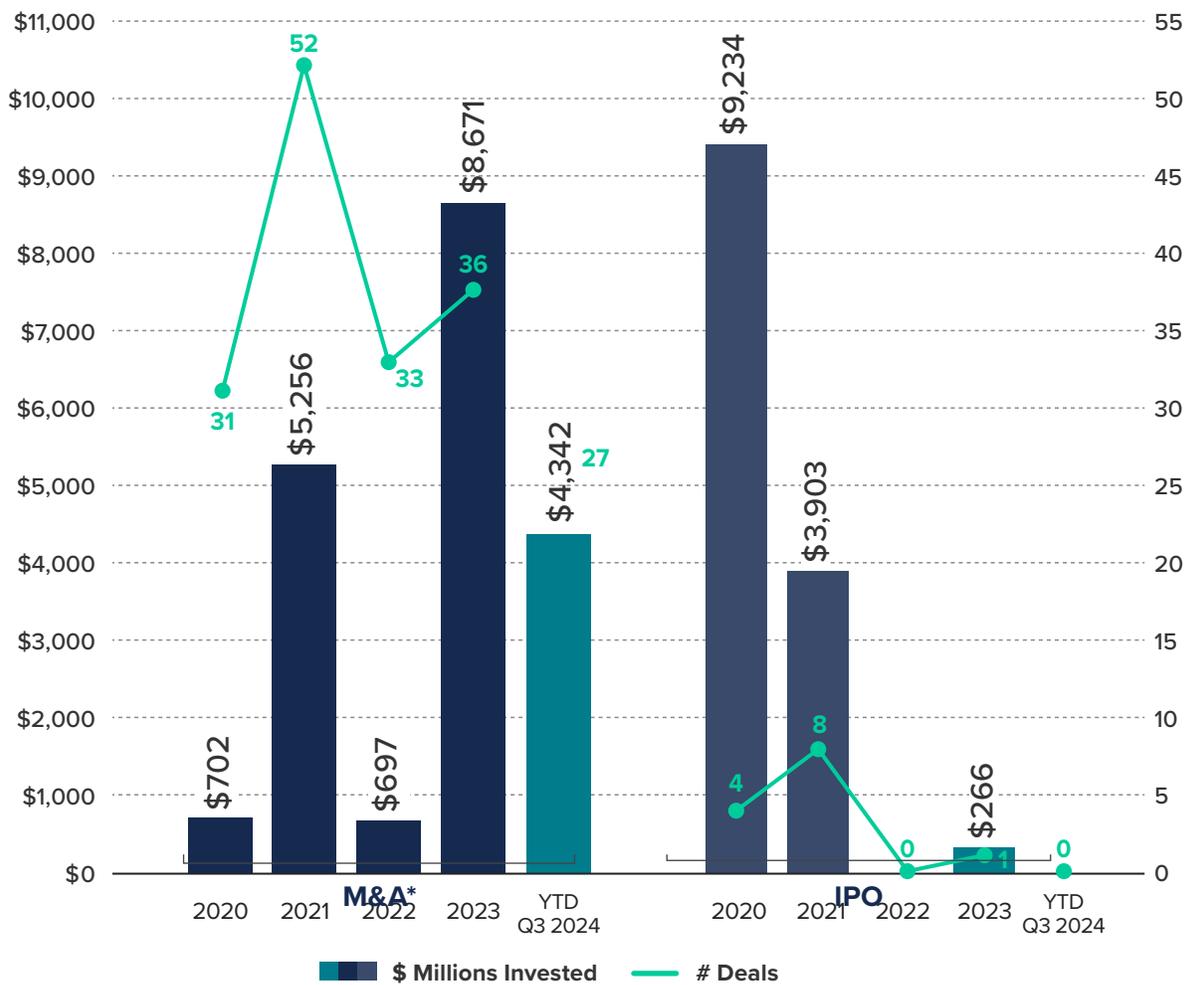

In Q3, Canadian investment activity showed a 17% drop in deal volume but a 6% rise in deal values, with \$2.7B invested across 130 deals. Year-to-date, Canada recorded 21 mega deals (\$50M+), driving the average deal size up by 44% from 2023 to \$15.2M.

Venture Capital Activity

Exits

YTD Q3 2024

By YTD Q3 2024, exit activity totaled \$4.6B across 30 exits, with a slowdown in Q3. M&A transactions led, making up 90% of exits and contributing \$4.3B in value, while VC-backed IPOs remained absent.

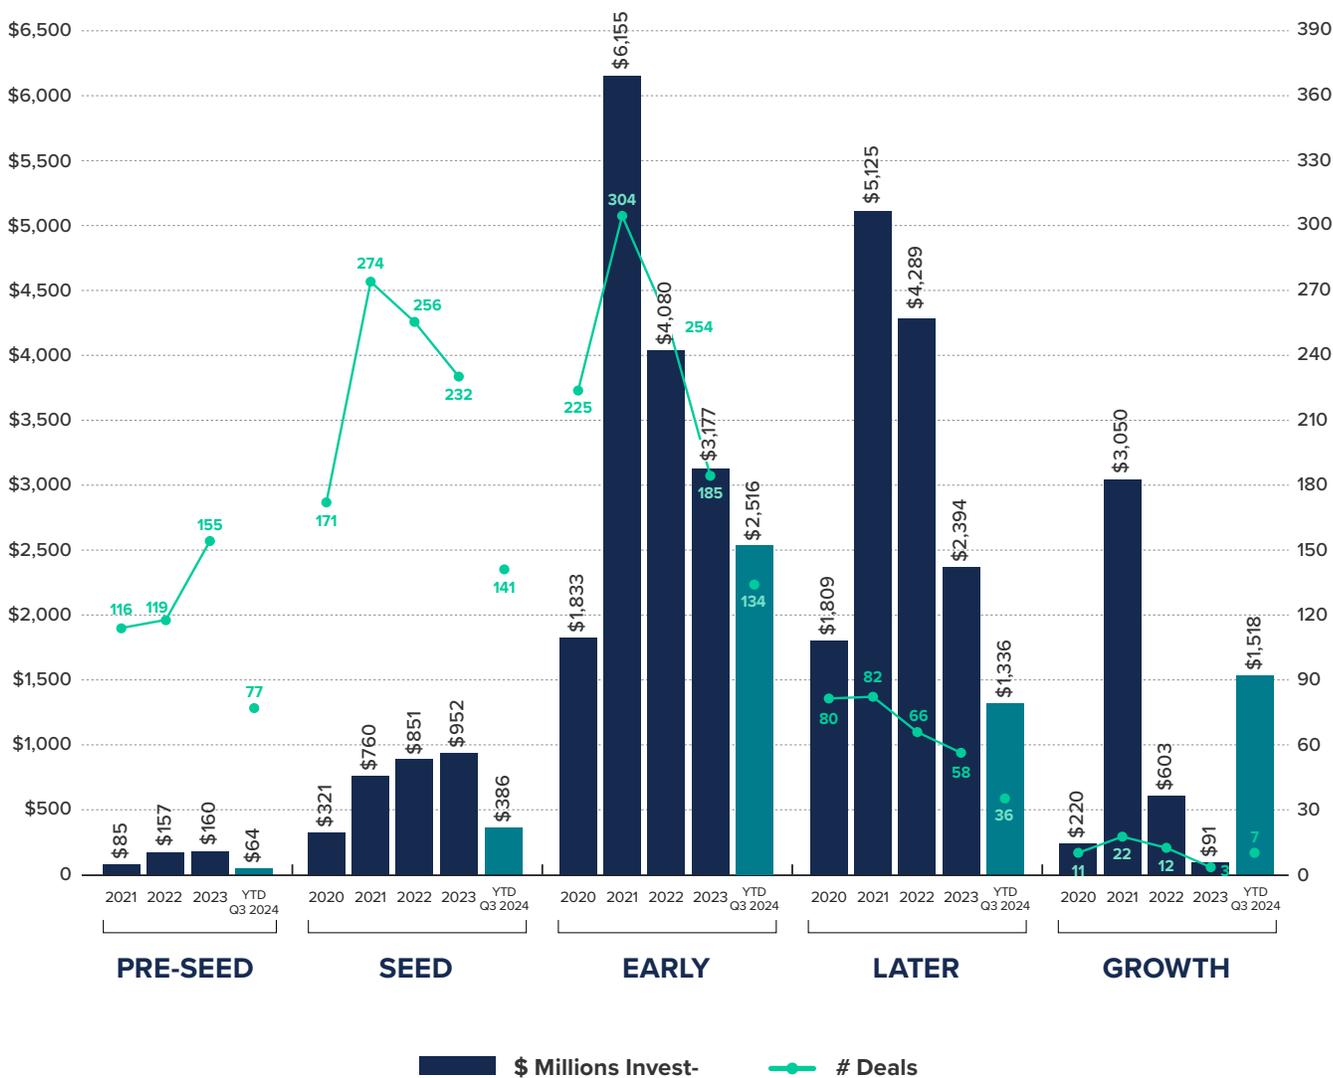

* Includes transactions with undisclosed values ** IPO value-

Venture Capital Activity

Stage Breakdown

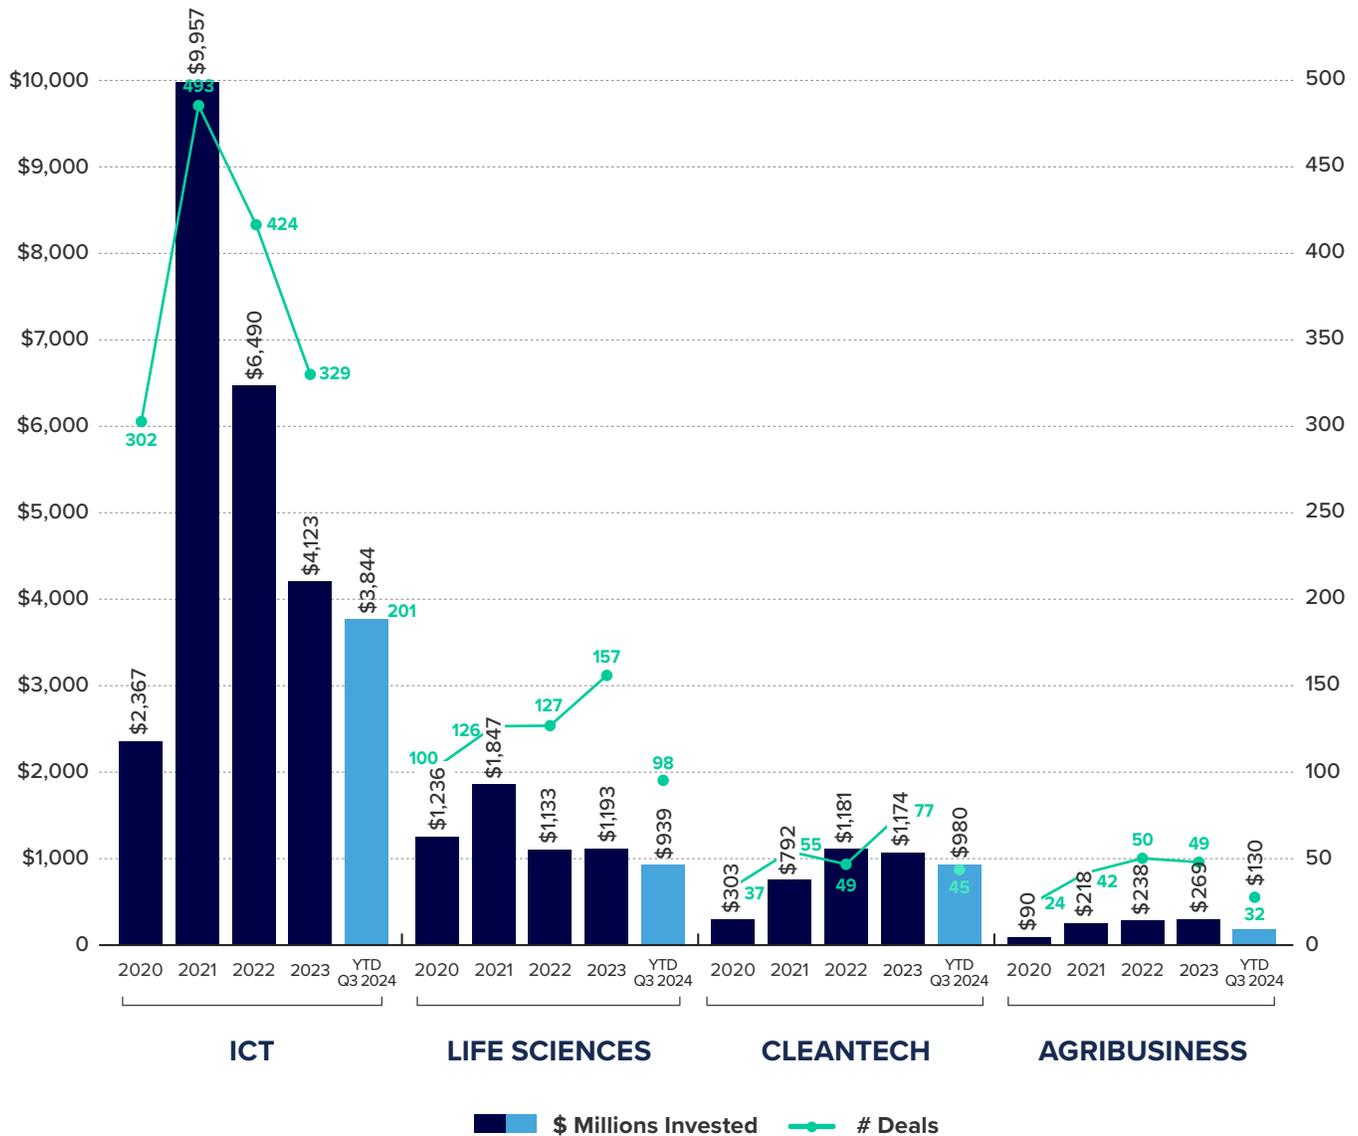

YTD Q3 2024

In the first nine months of 2024, pre-seed investments dropped to \$64M across 77 deals and seed funding decreased to \$386M over 141 deals, returning to 2020 levels. These declines may indicate heightened investor caution, particularly among angel and high-net-worth individual investors. Early-stage investment remained strong with \$2.5B across 134 deals, averaging \$18.8M per deal and representing 39% of total investment value. Later-stage investments declined to \$1.3B across 36 deals with an average deal size of \$37.1M, marking the lowest share on record at 21% of all dollars invested. Growth equity saw a surge to \$1.5B across 7 deals, marking the second-highest level on record and surpassing the totals from 2022 and 2023.

Venture Capital Activity Sector Breakdown

YTD Q3 2024

In the first nine months of 2024, ICT sector investment reached \$3.8B across 201 deals (including four mega deals worth \$2.2B), on track to exceed 2023 levels though remaining below the 2021 peak of \$9.9B. Life Sciences experienced a strong year with \$939M raised from 98 deals; while deal volume lags behind 2023’s record, the dollars invested remain comparable to recent years. Cleantech investments climbed to \$980M with an average deal size of \$21.8M—the second highest on record—setting up for another record year despite lower deal volume. Agribusiness saw a decrease to \$130M across 32 deals, returning to 2020 levels following last year’s record performance.

Driving Strategic Innovation with Corporate Venture Capital

Corporate venture capital in Canada is an emerging and evolving segment of the VC landscape, uniquely positioned to address some of today's most pressing challenges. Over the past three years, Canadian corporations have shown growing interest and engagement with CVC as a means to drive strategic innovation, enhance competitiveness, and respond to global shifts in technology, sustainability, and regulation.

CVC investments in Canada reflect a strategic and targeted approach. Recent years have seen a notable uptick in activity, with corporations focusing on areas such as digital transformation, sustainability, and regulatory compliance, aligning with both corporate objectives and broader industry needs. Key sectors like technology, clean energy, and healthcare continue to draw significant attention, reinforcing Canada's commitment to fostering innovation and addressing complex global challenges.

As of 2023, 6% of Canadian public companies generating over CAD \$1 billion in revenue were strategically leveraging the asset class, a figure that reflects both progress and untapped potential. The increased traction in CVCA highlights a focus on high-impact investments complementing Canada's public and private funding while addressing critical issues like sustainability, AI adoption, and advanced manufacturing.

Globally, Canadian CVCs have been noted for our emphasis on collaboration and value creation. As CVC continues to gain traction, its role in accelerating innovation, fostering sustainability, and navigating complex regulatory landscapes remains pivotal for corporations aiming to stay ahead in a rapidly changing world.

GENERAL NETWORKING

Investment Thesis

BCF Ventures invests in disruptive technologies that are challenging the status quo in traditional sectors or dramatically improving legacy processes. We invest primarily in B2B SaaS software that can leverage artificial intelligence at the Seed / Series A stages across North America, Europe and Israel. We also assess opportunistic deals, such as B2C sports and entertainment technologies that can have a global footprint. The Global Corporate Venturing has recognized BCF Ventures as a Top100 CVC Fund for the past 3 years.

Management Team

Sergio Escobar (CEO) is a recognized technology entrepreneur in the startup community, who incubated 60+ startups and helped founders grow their business from angel to Series B.

Bonnie Chau (Principal) leads the due diligence, and the portfolio companies' support. With previous operating and startup experience, Bonnie is recognized as an advisor and a mentor for startups.

Both executives have been recognized among the Top 100 Global Corporate VC Fund Managers.

What Makes Us Unique

Our uniqueness is our association with the corporate business law firm BCF because we can take advantage of the resource-sharing with the firm yet act independently to fulfill our mandate to generate return for all limited partners in the fund.

1. Intellectual Property: improve technical due diligence, such as quickly assess the patents, technical stack of the startup, alert any legal risk implications, etc.
2. Corporate Client Network: promote deal flows, expose to corporations in many different industries, transfer of knowledge and networking connections, co-investing opportunities.
3. Proof of Concept at the corporation: if situations allow, we can quickly assess the true essence of the solution.

Investment Thesis

Bell Ventures focuses on investments aligned with Bell's strategic imperatives and moves Canadian businesses forward across multiple industries as we advance how Canadians connect with each other and the world:

- Network technologies that further differentiate Bell's world-class wireless and fibre networks (security, cloud, ORAN, spectral efficiency, 5G, etc.)
- Applications / enterprise solutions that harness the power of Bell's networks and encourage growth and adoption of digital transformation and advanced technological solutions
- Innovation in data, analytics, AdTech, media and content distribution

Management Team

Bell Ventures is led by 5 members with extensive experience in mergers and acquisitions, corporate strategy, operations and consulting. The team holds advanced degrees and certifications in Law, Business and Accounting and have a track record in executing multiple and varied initiatives.

What Makes Us Unique

Bell Ventures invests in the advancement of key solutions that improve access for Bell customers by leveraging the best technology, driving adoption here in Canada, and helping businesses compete on the world stage.

As a Strategic Partner, Bell provides:

- A leading 5G and Fibre network
- Access to its extensive assets, including tech labs, field testing, data analytics capabilities, customer trial opportunities and Canada's largest multi-platform media company
- Access to a talented team of professionals with a proven track record of delivering reliable solutions to businesses, governments and consumers across Canada

Bluesky Equities Ltd. is an unconstrained investment management company with interests in various asset classes, including venture investing. Bluesky is owned by the Hunter family, philanthropists best known for creating the Hunter Hub for Entrepreneurial Thinking at the University of Calgary. Bluesky utilizes an industry-agnostic, hands-off investment approach, which has resulted in a portfolio of non-controlling positions in early-stage companies. Bluesky has invested in over 100 such companies since 2012.

Management Team

Derrick Hunter has been an active member of the local Angel investment community for many years. He was named Angel Investor of the Year for 2019 by the National Angel Capital Organization and Technology Investor of the Year by Start Alberta. Derrick is a Fellow of Creative Destruction Lab - Rockies. He is an Advisor to the UCEED General Health Fund and Platform Calgary and serves on the board of Alberta Enterprise Corporation. He also Chairs the Hunter Hub for Entrepreneurial Thinking at UCalgary. He was previously a director of Futurpreneur Canada for several years. He is a Trustee of the Hunter Family Foundation, which supports Entrepreneurial Thinking across many organizations.

Sara Mohajerani, a portfolio manager at Bluesky Equities, joined the team in 2017. She plays a key role in sourcing, evaluating, and managing investments across the venture portfolio while developing investment strategies. Her work is driven by a commitment to identifying transformative opportunities and fostering growth in dynamic sectors. Sara is dedicated to promoting entrepreneurship and supporting Alberta's startup ecosystem and serves on the board of the Venture Capital Association of Alberta (VCAA).

What Makes Us Unique

Bluesky funds early-stage entrepreneurs to fill the gap between friends and family money and venture capital funding, enabling startups to take the first steps in business and expedite growth. In addition, Bluesky is a Limited Partner in several venture capital funds, assisting portfolio companies in connecting with alternative sources of capital at later stages.

Investment Thesis

Established in 1998, BMO Capital Partners (BMOCP) is an evergreen investment fund with over \$2 billion of committed capital from BMO. The firm supports the North American mid-market through direct investments in companies in all stages of growth (equity investments/subordinated debt) and through fund investments focussed on buyout, growth equity and venture capital strategies. Beyond capital, BMOCP delivers value to funds and portfolio companies through its connection to the broader BMO platform including sponsor finance, technology lending, and other commercial and wealth solutions. Venture investments are typically Series B and onwards with a focus on compelling product market fit.

OTHER INVESTMENT CRITERIA

ESG METRICS

IMPACT INVESTOR

Management Team

BMOCP is led by Alex Baniczky, a seasoned and experienced investor who has guided the business since 2012. The investment team consists of 17 investment professionals spanning offices across Canada with plans for near term US expansion. The team brings a wealth of knowledge across various areas of finance including leveraged finance, accounting, investment banking, and consulting.

Select Members:

- Alex Baniczky, SVP and Head
- Andrew Hockin, Managing Director, Toronto
- Aaron Toporowski, Managing Director, Toronto
- Denis Desjardins, Managing Director, Quebec
- Hanz Gin, Managing Director, Western Canada

What Makes Us Unique

The long-standing commitment of BMOCP to Canadian capital formation has been rewarded by strong and deep partnerships across the industry. The team brings highly flexible capital solutions that can support all layers of the capital stack. This, in tandem with the ability to seamlessly integrate the product suite of the broader BMO organization helps provide a “one-stop shop solution” to firms and companies alike.

Through BMOCP’s history, the firm has led with a focus on local geographic coverage which provides strategic insight into private equity and venture capital markets across Canada. The continued expansion of BMO’s North American footprint provides unique deal flow and execution capabilities not offered by other corporate venture partners in Canada.

CIBC Innovation Banking delivers strategic advice, cash management and funding to innovation companies across North America, the UK, and select European countries. We have 550+ leading technology and life science clients, and offer flexible capital solutions ranging from \$1 million to \$100+ million. In addition, we provide capital call lines to venture capital firms, and LP commitments to funds in North America and Europe.

Management Team

In 2018, CIBC acquired Wellington Financial and launched CIBC Innovation Banking with a vision to be the leading bank lender to entrepreneurs and investors in the innovation economy. The CIBC Innovation Banking team brings over 20+ years of financial services and innovation banking experience. The financing team has injected over \$15 billion in capital support to innovative software, life sciences, health care, cleantech companies, investors and entrepreneurs, and has assisted more than 550 venture-backed businesses over the past seven years. With the strength of CIBC, the CIBC Innovation Banking team is recognized as the bank partner of choice by providing tailored financing solutions and banking services to meet their growth needs at every stage of a company’s life cycle.

Deloitte Ventures is committed to fostering innovation and driving transformative change by investing in visionary founders tackling real-world challenges. We focus on investing in high-growth B2B software companies with \$1 – 20M in ARR (Series A and B) across a variety of verticals including Data & AI, fintech, climate-tech, health-tech, cybersecurity, and worktech. As Deloitte Canada’s corporate venture capital fund, we leverage our network to provide our portfolio with commercial opportunities, subject matter expertise, and hands on scaling and operational support.

Management Team

Deloitte Ventures is led by Talia Abramowitz, who was the driving force behind the launch of our fund in 2022, a first-of-its kind initiative for Deloitte Canada. She brings over 15 years of experience in valuation and M&A advisory across various industries. She is joined by two Managing Directors -- Jay Crone, who leverages his 15+ years of experience as a venture investor, investment banker, economist, and entrepreneur to co-lead the fund’s investment strategy, and leads our fintech, cybersecurity, and climate-tech investments. Jon Wolkin brings over 12 years of experience in investment banking, private equity, and venture capital as an investor, advisor and board member, and leads our Data & AI, healthtech and worktech investments.

What Makes Us Unique

Our secret sauce lies in our ability to combine capital with market access. We’re more than just a financial investor; we serve as a strategic partner to our portfolio companies. Our global network, complemented by our deep industry expertise enables us to unlock commercial opportunities and cultivate meaningful connections that propel growth for our portfolio.

Our fund strives to achieve a “triple win” that we believe is fundamental to corporate venturing, where value is derived by:

1. The corporate – who gains access to new, cutting-edge technologies and generates financial returns;
2. Startups – who receive capital, commercial introductions, and strategic support; and
3. The economy – which benefits through job creation, innovative and less expensive products, and higher productivity.

NAventures is the corporate venture capital arm of National Bank of Canada. We make direct equity investment in and partner with high growth potential technology companies that can advance the financial and strategic objectives of National Bank of Canada. NAventures invests globally with a focus on North American Seed to Series B stage companies.

Management Team

The NAventures leadership team is comprised of Philippe Daoust, the Managing Director, as well as James Povitz and Joshua Lebacqz, the Principals that manage the investment and innovation mandates for NAventures. Philippe is an accountant by trade and has spent his career leading transformative M&A initiatives for global businesses. James and Joshua have extensive experience in law, corporate strategy, venture capital and entrepreneurship and are active contributors to Canada's startup community.

What Makes Us Unique

NAventures distinguishes itself by its deep understanding of fintech and strong focus on building impactful commercial partnerships between National Bank of Canada and its portfolio companies. This approach is a defining feature of NAventures, with the team dedicating more than 50% of its efforts to collaborating with bank stakeholders and portfolio companies to evaluate, launch, and scale partnerships. By strategically aligning investments with National Bank's priorities, NAventures drives innovation and creates measurable value for the bank, its clients, and its portfolio companies, positioning itself as a leader in integrating venture investments into broader organizational objectives.

Thomson Reuters Ventures is the VC arm of Thomson Reuters. We are a Series A focused fund investing in markets that Thomson Reuters has a presence in including tax, legal, fraud/risk/compliance, news/media, data, and finance. Our focus is on companies leveraging machine learning, natural language processing, and task and process automation. Our average investment size is between \$3M-\$7M, and we have invested in 20+ companies since our inception in 2022. We are a global fund, and our goal is to accelerate the future of professionals while enabling access to the assets and expertise of Thomson Reuters.

Management Team

Tamara Steffens, MD

Tamara is a business leader with 20 years of experience driving growth and facilitating successful exits for early-stage start-ups. She previously led investing and VC partnerships in North America and India for M12, Microsoft's venture fund.

Joe Dormani, Partner

Joe has held a variety of strategy, finance, and product roles over his 15 year career. He has led M&A deals valued in the hundreds of millions, driven strategy for multibillion dollar organizations, and helped scale high growth software products.

What Makes Us Unique

Thomson Reuters Ventures leverages the expertise, GTM access, strategic, and technical support of Thomson Reuters to accelerate our portfolio companies. As we invest in markets that the enterprise serves, we can develop a granular understanding of challenges customers face and how those markets evolve. Our position as a trusted partner to our customers and our ability to extend those relationships to our portfolio companies makes Thomson Reuters a highly strategic investor for startups. Partnership examples include integrating our portfolio company's technology with Thomson Reuters solutions, data share agreements, or creating a GTM strategy including introductions to our large client base.

Verdex Capital is an evergreen venture capital investor. Our mission is to Advance Canadian Agriculture by investing in community and venture development. We achieve our mission primarily through Carrot Ventures, a venture studio formed to address the gap between the development of promising innovations and successful commercial outcomes. Carrot seeks innovative technologies with the potential to transform our food and agricultural sectors. We combine promising IP with strong leadership into a newly formed company, properly structured and sufficiently capitalized for the venture journey.

Management Team

Martin Vetter, CEO, Verdex Capital, and Founding Partner, Carrot Ventures

Over 30 years of venture development, investment, and product commercialization experience.

Jim Hardin, VP, Verdex Capital, and Founding Partner, Carrot Ventures

Over 30 years experience building and investing in agricultural, digital and life science technology companies.

Danny Way, Investment Manager, Verdex Capital, and Venture Partner, Carrot Ventures

A founder, entrepreneur, and mentor within Canada's innovation and investor communities.

Kelly Krahulic, Investment Manager, Verdex Capital, and Principal, Carrot Ventures

Experienced entrepreneur with a focus on pragmatic venture analysis aligned with team and technology development.

What Makes Us Unique

Carrot's mission is to create and finance new companies with the potential to transform the food and agricultural sectors.

Carrot is a venture studio that co-founds new companies that combine innovative technologies, strong leadership, and capital to take great innovations to market. The core benefit of co-founding a company with a venture studio is an accelerated commercialization process with higher success rates than independently founded startups.

GENERAL NETWORKING

Investment Thesis

Active Impact investments is a seed stage climate tech venture capital fund that invests in companies who can attribute a significant environmental impact to their solution, typically within four verticals: clean energy & transportation, infrastructure & carbon solutions, sustainable food & water, and circular & sharing economy. Primarily investing in Canada and the US, Active Impact’s portfolio includes and is seeking some of the most successful startups that are capable of achieving venture scale while solving the most urgent environmental issues.

OTHER INVESTMENT CRITERIA

IMPACT INVESTOR

Recent Investment Activity

Fund I: 2018 vintage, \$7.2M USD under management, 15 portfolio companies, 5 exits.

Fund II: 2021 vintage, \$42.9M USD under management, 17 portfolio companies, 2 exits.

Fund III: 2024 vintage, \$62.3M+ USD under management (pending its final close in Spring 2025), 5 portfolio companies, 0 exits.

Portfolio Companies & Exits

SWTCH is an end-to-end solution for EV charging infrastructure for multi-residential buildings. We invested at seed and they are now Series B funded with over \$100M valuation and over \$30M revenue run rate.

Jaza Energy’s solar powered battery charging hubs provide clean energy without centralized grid infrastructure in Africa. Our Jaza shares were acquired in October 2024.

Sustain.Life is a carbon management platform for SMEs to measure, manage and report emissions. Sustain.Life sold to Workiva for \$100M USD in June 2024.

Management Team

Active Impact is a team of 10 with expertise in sales, recruiting and law bound together by a shared mission to fund exceptional founders solving urgent environmental problems.

Mike Winterfield - Founder & Managing Partner of Active Impact, ex COO of Traction on Demand and President of Randstad Professionals.

Tom Boddez - General Partner, ex Partner of Thorsteinssons LLP.

Sam Hasty - Partner, ex Fulbright Scholar & Managing Partner of Opportunity Hub.

Elyse Crowston - VP, Operations, ex Rhiza Impact and Renewal Funds.

What Makes Us Unique

We have built playbooks that help seed stage founders where they need it most: hiring support and sales infrastructure. To date, we’ve placed 35 management level and c-suite roles across our portfolio.

We have developed proprietary systems that assess exceptional potential that others overlook and back exceptional founders early. Examples of this include SWTCH, Audette, RailVision & Hyfluence.

We deliver a consistent, transparent and enjoyable experience to our investors, founders and team. 73% of our investors in Fund I returned in Fund II and our average satisfaction score is 95% for investors and 96% for founders.

Boreal Ventures accelerates Canada’s top seed-stage tech startups, combining capital with hands-on expertise to sharpen go-to-market strategies and scale fundraising efforts. We focus on transforming early product-market fit into efficient, repeatable growth. Our investment domains span Industrial Innovation, DeepTech, Cleantech, Digital Health, and B2B SaaS. By forging strong ties with local and global investors, Boreal is building its reputation as the premier partner in Canada’s tech ecosystem.

Recent Investment Activity

Boreal Ventures launched BVI in early 2021, investing in 11 companies with plans to back 14-15 in total.

Of the \$26M raised, \$12M has been deployed, with two successful exits and reserves for future opportunities.

BVII, targeting a \$30M fund, aims for a first close in mid-to-late 2025, continuing the momentum.

Portfolio Companies & Exits

- **Puzzle Medical Devices:** BV led the seed round; the company has raised \$60M+ to date, including participation from KKR and Hellman & Friedman.
- **SmartD:** BV spearheaded the seed round; \$20M+ raised, including participation from strategic investors Schneider Ventures and Hammond Power Solutions.
- **Kento Health:** BV led the pre-seed round, fueling early-stage growth in health innovation.

Management Team**David Charbonneau – Managing Partner**

David founded Boreal in partnership with Centech in 2021. With 15+ years in engineering, consulting, and venture capital, David champions Quebec’s top startups. Formerly at BDC Capital, he is passionate about empowering entrepreneurs, fostering innovation, and driving impactful growth.

Investment committee

The Boreal Ventures team is guided by an investment committee comprising Robert Talbot (CDPQ, Telesystem), Mark-Anthony Sdao (Desjardins Capital), and Nelson Stacks (3i Group, Oak Investment), and is supported by CFO Samuel Larivière.

What Makes Us Unique

Boreal Ventures thrives in Quebec and Canada’s tech ecosystem through a powerful network of experts, offering proprietary deal flow, market insights, and early customer connections. Built on trust and collaboration, our network drives value by uniting top operators and sales professionals—filling a critical gap in Canada’s ecosystem. With venture partners and allies, we deliver unmatched support to scale go-to-market sales motions, help external parties and startups alike navigate Canada’s tech ecosystem and accelerate growth for the country’s most promising seed-stage startups. Our unique edge lies in enabling those we believe in, fostering success through deep expertise, authenticity, and actionable insights.

GENERAL NETWORKING

Investment Thesis

BrandProject invests in visionary founders who understand the needs of today to build the brands of tomorrow. We incubate and invest in early stage (pre-seed, seed, series A) consumer facing brands who are defining the future of commerce across North America. BrandProject is typically the first institutional investor on the cap table. BrandProject's team gets heavily involved in supporting our portfolio companies across marketing, brand, technology, finance, strategy and operations.

OTHER INVESTMENT CRITERIA

WOMEN-LED BUSINESSES

BIPOC-OWNED BUSINESSES

Recent Investment Activity

BrandProject Studio has made 34 investments since 2013 and has had 9 exits. BrandProject Capital I is a US\$43M fund that has made 14 investments since 2019 and has had one exit to date. BrandProject Capital II is our latest fund and has made 5 investments since the beginning of 2023.

Portfolio Companies & Exits

Since BrandProject's inception, we have had the privilege to partner with some exceptional brands including **Freshly** (sold to Nestle for US\$1B), **Chef's Plate** (sold to HelloFresh), **Persona** (sold to Nestle Health Science), **Hello** (oral care brand which sold to Colgate Palmolive), **Daily Harvest**, **Clutch**, **Our Place**, **Felix Health**, **Peachy** and **Juno Vet**, amongst others.

Management Team

BrandProject was founded in 2013 by Andrew Black (Founder, Managing Partner), Andrew Bridge (Co-Founder & Partner, Marketing & Operations) and Jay Bhatti (Co-Founder & CTO). Prior to BrandProject, Andrew Black founded Virgin Mobile Canada with Sir Richard Branson in 2004 and grew the business to over 1M customers and \$500M in revenues within five years. Prior to Virgin, Andrew was President at LEGO Americas, US GM at Nike, and earlier was VP Marketing-North America at Dr Pepper 7UP.

What Makes Us Unique

Since forming in 2013, BrandProject has been actively involved in supporting and building portfolio companies alongside our founder partners. BrandProject's operating team has significant experience across marketing, brand, technology, finance, strategy and operations and half of our team has been entrepreneurs themselves. BrandProject's concentrated portfolio approach allows us to spend significant time working alongside our founders to build great brands and members of our team often act as interim CMOs, CTOs, CFOs and COOs of our companies at the early stage.

GENERAL NETWORKING

Investment Thesis

At Brilliant Phoenix, we balance investments in transformative technologies with real estate in Greater Vancouver. Our portfolio includes leading tech innovators like SpaceX and AI pioneers such as Cohere, OpenAI, and Anthropic, typically accessible only to institutional investors. This fuels growth and innovation, while our mortgage investments provide liquidity and stability, mitigating market volatility. Our dual approach blends reliable returns with long-term growth potential, delivering robust value to our clients in a rapidly evolving global economy.

OTHER INVESTMENT CRITERIA

WOMEN-LED BUSINESSES

BIPOC-OWNED BUSINESSES

IMPACT INVESTOR

Recent Investment Activity

Brilliant Phoenix manages four funds, including an AI fund investing in 4–7 growth-stage companies such as Cohere, Anthropic, and OpenAI, as well as a SpaceX fund delivering exceptional returns. Additional funds focus on Israeli deep tech and mortgage investments, showcasing a strong track record in transformative technologies and strategic market opportunities.

Portfolio Companies & Exits

Brilliant Phoenix’s AI fund backs growth-stage leaders like **Cohere** (150% ROI by July 2024), **Anthropic** (targeting \$40B valuation after February 2024 investment), and **OpenAI** (80% ROI within a year), showcasing exceptional foresight in transformative technologies. The **SpaceX fund** further reinforces this vision, reflecting our strategic commitment to industry-defining innovations.

Management Team

Cindy Chen, founder of Brilliant Phoenix, leads a seasoned team specializing in private equity and tech investments. The team includes Prof. Chunhua Wu, a marketing strategist and director; Garnet Andrews, an expert in compliance and pension investments; Jedi Lu (Indigo), a VC veteran focusing on AI and Web3; and Vivian Yuan, a Wall Street-trained asset manager. Together, they manage a diverse portfolio across early-stage tech, AI, lending funds, and Special Purpose Vehicles in North America.

What Makes Us Unique

At Brilliant Phoenix, we are deeply committed to the transformative potential of AI and space exploration, focusing on pioneering investments in foundational models, infrastructure, and groundbreaking technologies like SpaceX. Our forward-looking strategy enables us to identify high-impact opportunities in growth-stage companies. As a women-founded firm, we emphasize inclusivity, bridging Israeli innovation with North American markets to drive growth, revolutionize industries, and shape a more inclusive, tech-driven future.

Conexus Venture Capital Inc. (CVC) backs early-stage technology founders in Saskatchewan. We invest from Seed to Series B and make opportunistic investments in the best-performing companies in the prairies. CVC invests in founders who traditionally have had limited access to capital and take a lifecycle approach, reserving capital to support our portfolio companies with follow-on investments as they grow.

OTHER INVESTMENT CRITERIA

IMPACT INVESTOR

Recent Investment Activity

CVC Fund #1 (2019): \$21M+ USD + recycled proceeds. Fully deployed across a portfolio of 14 companies.
CVC Fund #2 (2024): \$18M+ USD committed. \$3M USD invested across 3 portfolio companies.

Portfolio Companies & Exits

Coconut Software – raised \$20M USD Series B led by Klass Capital in 2021.
Thinkific – Exited through secondary before 2021 IPO.

Management Team

A team of three qualified investment professionals with combined experience building and operating companies, tech incubators, and private equity & venture capital funds.

Jordan McFarlen, Managing Director – tech incubator director, fundraiser, investor and portfolio company relations.

Alex Shimla, Principal – tech incubator co-founder and director, ecosystem builder, and go-to-market advisor.

Gabrielle Schubach, CPA, Manager, VC Finance & Operations – fund administrator, private capital professional and business valuator.

What Makes Us Unique

Deal Flow: As the largest and most active venture fund in the Saskatchewan, we have proprietary access to deal flow.

Disciplined Diligence: We follow a disciplined investment process by leveraging the experience of our investment team and LP base to conduct comprehensive diligence.

Founder Support: We take a hands-on approach, often through board seats, and engage with our portfolio to build world-class companies.

FUNDRAISING/SEEKING LIMITED PARTNERS

CO-INVESTMENT OR SYNDICATE ON DEAL FLOW

GENERAL NETWORKING

Investment Thesis

CTI Life Sciences Fund (CTI) is a Canada-based biotech investor and company builder fund. CTI began with the investment thesis that large pharma would increasingly rely on acquiring small biotech to fill their drying pipelines - a trend that is truer today than ever. CTI generated superior returns resulting from a targeted and differentiated investment strategy: 1) create and/or transform companies (e.g., Epiteopea, GLyPharma, and Zymeworks), and 2) identify companies with best-in-class potential (e.g., Amolyt Pharma, Enobia and Vaxcyte).

Recent Investment Activity

Fund I:

- \$70M USD
- 10 Investments
- 5 Exits (e.g., Enobia acquired by Alexion for \$1.1B)

Fund II:

- \$100M USD
- 14 Investments
- 4 Exits (e.g., VectivBio – acquired by Ironwood for \$1.2B)
- 4 Active Portfolio Companies

Fund III:

- \$100M USD
- 7 Investments to date and 2-3 more to come
- 1 Exit (i.e., Amolyt Pharma – acquired by AstraZeneca for \$1.05B)

Portfolio Companies & Exits

Amolyt Pharma:

- Series C / clinical stage
- Acquired by AstraZeneca for \$1.05B

Vaxcyte:

- Series A / pre-clinical stage
- IPO on NASDAQ in 2022, market cap at \$11B USD

GLyPharma:

- Seed / company creation
- Acquired by Therachon / Pfizer for \$810M USD

Management Team

Ken Pastor – Managing Partner
 Laurence Rulleau, PhD – Managing Partner
 Youssef Bennani, PhD, MBA – Managing Partner
 Shermaine Tilley, PhD, MBA – Managing Partner

What Makes Us Unique

CTI Life Sciences Fund (CTI) has a targeted and differentiated investment strategy that builds on our original investment thesis: that large pharma will continue to pay premium prices for small biotech companies/assets. CTI provides two critical add values to our investments: 1) extensive entrepreneurial experience as founders and leaders of several companies to guide investments from creation to inflection, and 2) an extensive network resulting from multiple successful exits to support and grow our investments. These added values make CTI a premium partner for Canadian, US, and European biotech companies.

Cycle Capital invests across North America and Europe in growing and commercializing companies that have developed technologies that positively contribute to climate change mitigation by accelerating a net-zero transition, reducing greenhouse gas emissions, and optimizing resources and processes.

With Fund V, Cycle Capital has a refined focus on Enabling Technologies in the sectors of; Sustainable Transportation, Energy Transition, Smart Cities & Buildings, Industrial Decarbonization & Digitalization. Enabling technologies of interest include Microelectronics/ Power Electronics, AI/Algorithms/Data, IOT/Sensors, and System Solutions (mechanical, electrical, etc.).

OTHER INVESTMENT CRITERIA

ESG METRICS

IMPACT INVESTOR

Recent Investment Activity

Cycle Capital manages 7 funds totaling CAD \$700M+ in AUM.

Three funds are in the investment period:

- Cycle Capital Fund V, a CAD \$145M venture growth fund, 2024 vintage;
- Circular Innovation Fund, a CAD \$165M venture growth fund focused on circular innovation, 2022 vintage;
- Cycle H2O, a CAD \$30M seed/early stage fund, 2024 vintage.

Portfolio Companies & Exits

Cycle Capital has successfully completed a number of exits, including those two key players in advancing climate technology solutions in their respective sectors:

- GaN Systems, a leader in Gallium Nitride transistors for high-efficiency power applications, acquired by Infineon Technologies for CAD \$1.1B in 2023
- Rhombus Energy Solutions, specializing in EV charging, acquired by BorgWarner for USD \$185M in 2022

Management Team

Cycle Capital’s management team is one of Canada’s most diverse, with expertise spanning VC, engineering, finance, and cleantech.

- Led by Founder and Managing Partner Andrée-Lise Méthot and Managing Partner Claude Vachet (both 30+ VC years)
- The team includes 2 senior partners: Shirley Speakman (25 VC years, Toronto based) and Gerd Goette (24 VC years, San Francisco based)
- Additionally, the team features 3 partners: Pascal Drouin (17 VC years), Catherine Bérubé (10+ VC years), and Ariane Cloutier (acts as CFO).

This core team is supported by investment, finance and accounting, ESG/Impact investing and communication professionals that have a deep ClimateTech network and extensive industry knowledge.

What Makes Us Unique

Founded in 2009, Cycle Capital is a ClimateTech investment pioneer with a track record both in fund management and in growing strong sustainable companies. As such, we are well positioned to expand globally and support Canada’s strategy to become one on the leading countries in sustainability.

The team, a combination of seasoned professionals with engineering, entrepreneurial and finance backgrounds conducts rigorous due diligence, including full Intellectual Property review (Freedom to Operate). As a lead investor, we build strong investor syndicates with financial and corporate investors, working relentlessly to create value and achieve great exits for our investors.

GENERAL NETWORKING

Investment Thesis

Evok Innovations invests in and supports exceptional entrepreneurs with innovative climate technologies and bold visions. Fund II invests in Series A+ companies across Canada and the U.S. that are developing hard tech solutions in carbon management, clean fuels, critical minerals, and industrial electrification. As long-term climate entrepreneurs and investors we know that the best technology is not enough. To have true impact - both financial and climate - scale is necessary, and that requires deep engagement with the industrial and infrastructure sectors.

OTHER INVESTMENT CRITERIA

ESG METRICS

Recent Investment Activity

Investment activity across Fund I and Fund II in the past 36 months includes 9 initial investments (\$92.5M USD) and 15 follow-on investments (\$43M USD).

Portfolio Companies & Exits

Fund I Notable Exits

- **DarkVision** – Acquired by Koch Industries, CVCA Deal of the Year 2021
- **Mosaic Materials** – Acquired by Baker Hughes
- **Twelve** – Secondary transaction

Fund II Portfolio

- **e-Zinc** – Long Duration Energy Storage
- **Koloma** – Natural Hydrogen
- **MineSense** – Mining Insights Technology
- **Summit Nanotech** – Direct Lithium Extraction
- **Planetary Technologies** – Marine Carbon Dioxide Removal

Management Team

The leadership team at Evok consists of four partners: Marty Reed (Vancouver, BC), Jane Kearns (Toronto, ON), Naynika Chaubey (D.C.) and Mike Biddle (San Francisco, CA). Combined, the partners have over 80 years of experience building, investing in, and exiting cleantech companies. Evok’s partner group brings a diverse skillset specific to growing and scaling our hard tech-focused portfolio companies.

What Makes Us Unique

Evok is unique in the climate space in that all partners have operated and scaled industrial technologies, and the broader team has deep technical expertise in electrochemistry, chemical engineering, geosciences, and physics. We have built companies from the ground up and scaled them to success, so we have been in our entrepreneurs’ shoes. The team has been involved with financing and building first of a kind plants and projects, which is critical expertise for scaling climatetech companies. The Evok team has deep institutional relationships – both public and private – that inform our strategy and path to scale.

CO-INVESTMENT OR SYNDICATE ON DEAL FLOW

GENERAL NETWORKING

Investment Thesis

Finchley Healthcare Ventures invests in emerging private companies that focus on developing novel therapies with the potential to address significant unmet medical needs and revolutionize patient care.

Our ideal investment target has a clinical candidate identified, from any sector, that addresses a serious condition for which current therapies are ineffective, have unacceptable risk/benefit ratio or are not accessible to most patients. We primarily seek to invest at financing rounds A and B, jointly with a strong investment syndicate.

Recent Investment Activity

Since its inception in November of 2022, FHV Fund, LP has invested in five life sciences funds as well as two direct investments in companies, located in Canada and the United States.

We have approximately 50% of our initial capital committed.

Our fund has an evergreen structure, and we expect to continue making new investments over the next decade.

Portfolio Companies & Exits

FHV Fund, LP has invested in one U.S. based company named **Capstan Therapeutics** and one Canadian company, **Reverb Therapeutics**.

Capstan was an oversubscribed series B round of financing of \$175M. The proceeds from the round will be used to advance Capstan's lead in vivo CAR-T product candidate to early clinical proof-of-concept in autoimmune disorders.

The Reverb Tx investment was part of a seed extension to advance the company platform of bispecific antibodies to amplify endogenous cytokines and redirect them to tissues of

Management Team

Composed of entrepreneurs with decades of experience in developing new therapies and securing the necessary financing to bring them to market, our management team has the breadth of expertise to understand both the science and the market dynamics required for successful investments.

Our investment professionals hold Ph.D.s in life sciences across various disciplines, including immunology, microbiology, neurology, pharmacology, and human genetics, providing in-depth knowledge of key areas for potential investments.

What Makes Us Unique

With established relationships at local, national, and international levels, we are at the forefront of investment deals with the most promising companies seeking financing.

Through our affiliated companies, we offer more than a source of capital to our portfolio companies; we can be a catalyst to help companies achieve their goals. Having a vested interest in the success of our portfolio companies, we ensure they have access to the best support without delays.

FUNDRAISING/SEEKING LIMITED PARTNERS

CO-INVESTMENT OR SYNDICATE ON DEAL FLOW

GENERAL NETWORKING

Investment Thesis

Genesys invests in early-stage life science opportunities in areas of unmet medical need. The firm employs a company co-creation investment strategy, working closely with local founders and entrepreneurs to create and build best-in-class companies that attract global investment. This strategy is made possible by the firm's 20+ year immersion within Canada's most productive research corridor, comprised of world-class scientific and clinical leadership. Genesys supports its portfolio companies from inception to exit with capital, mentorship, and access to its deep networks.

Recent Investment Activity

Since 2001 Genesys has invested \$300M across 40 companies and has been the lead and/or initial investor in >80% of its investments. Genesys has managed four institutional limited partnerships with Funds I to III generating upper quartile returns for their vintage years. Fund III has produced North American class-leading DPI multiple and the firm is currently deploying Fund IV.

Portfolio Companies & Exits

Fund III has generated class-leading DPI multiple. Notable recent exits include two companies that Genesys was instrumental in launching with their founders, which together generated \$4.6 Billion CAD and represent two of the largest transactions in Canadian biotech history.

- **Inversago Pharma** exited to Novo Nordisk for \$1.4B CAD in September 2023, Awarded 2023 CVCA Deal of the Year
- **Fusion Pharmaceuticals** exited to AstraZeneca for \$3.2B CAD in March 2024

Other notable exits include:

Management Team

Genesys Capital's management team has worked together since 2002 making it Canada's longest standing partnership in life sciences venture. Over its history, the team has built a valuable network locally and globally with a demonstrated ability to generate high quality deal flow. With the continuity of the team, the proven effectiveness of the Genesys investment strategy and the significant number of investment years the team has ahead of it, Genesys expects to be generating superior returns for its investors well into the future.

What Makes Us Unique

Genesys is the most successful life science venture fund in Canada investing in early-stage opportunities. The firm takes a consistent approach to building world-class life science companies in its local jurisdiction. Key tenets of the strategy include accessing unique and proprietary deal flow by working closely with local researchers and clinicians and being an early thought partner, then building these opportunities into world-class life science companies. Genesys has a deep network of repeat founders and entrepreneurs to draw on for insights and talent. This approach of creating investment opportunities from the ground up has produced repeatable returns, several Canadian anchor companies, and a track record that has established Genesys as the local trusted source of deal flow for US, European and strategic investors.

FUNDRAISING/SEEKING LIMITED PARTNERS

CO-INVESTMENT OR SYNDICATE ON DEAL FLOW

GENERAL NETWORKING

Investment Thesis

GreenSky invests in early-stage Canadian technology companies that make a measurable and significant impact in existing B2B value chains. Our investment approach is underpinned by: i) a robust proprietary network for sourcing deal flow, ii) a deep due diligence process that means GreenSky companies are more likely to secure follow-on funding, and iii) a disciplined approach to deal structuring. Our portfolio is concentrated in high conviction companies, which our team supports through inflection points in their businesses.

Recent Investment Activity

Fund I - \$2.3M in 9 companies; 3 exits
Fund II - \$3.3M in 8 companies; 3 exits
Fund III - \$6M in 11 companies; 3 exits
Fund IV - ~\$12.3M; 14 companies; 2 exit
Fund V - ~\$15.2M; 11 companies
Fund VI - ~\$14M and still fundraising; 4 companies so far.

Portfolio Companies & Exits

RANK Software: RANK provided real-time cyber-security analytics that ingested data from all network traffic. RANK was acquired by Arctic Wolf in 2020.

Cyclica Inc: Cyclica built a proprietary early-stage drug discovery platform that provided statistical rankings of the on- and off-target effects of a small molecule drug in the human body. Cyclical was acquired by Recursion Pharmaceuticals in 2023.

Akira: Akira was a digital healthcare delivery platform, remotely connecting patients with doctors and nurse practitioners. Akira was acquired by TELUS Health in 2019.

Management Team

Michael T. R. List (14 years with GreenSky) is an experienced corporate/M&A lawyer and a successful entrepreneur having had three material exits of companies that he founded.

Marian Hoffmann (2 years) was Lead Portfolio Manager and Research Director at Sionna Investment Managers.

Jeff Brunet (1 year) is a seasoned entrepreneur, investor, and advisor with extensive experience founding, scaling, and exiting multiple technology companies.

Greg Stewart (11 years) was an Equity Analyst at Neuberger Berman and CFO of American Strategic Insurance.

Valdis Martinsons (9 years) was CIO of RIM and CTO of Virgin Mobile Canada.

Neil Peet (10 years) was a strategy consultant and an entrepreneur.

What Makes Us Unique

GreenSky has been making Pre-Seed, Seed and Series A stage investments in Canadian businesses without interruption since 2015. Our team members have deep knowledge of technology, operations, finance, strategy and entrepreneurship. Our collective experience enables us to effectively screen promising investment candidates from a wide range of leads, and our portfolio is split between enterprise SaaS and deep tech. We have had exits in each of our major verticals. We perform rigorous due diligence at the seed stage, which reduces the failure rate inside our portfolio. We make concentrated investments and have led over 80% of the initial investment rounds in which we participate.

Investment Thesis

Greensoil PropTech Ventures’ mission is to digitize and decarbonize the built environment, the biggest asset class on the planet, which is responsible for up to 40% of global CO2 emissions. With approximately US \$150M under management, GSPV invests in early to mid-stage VC opportunities in North America, Europe and Israel that make real estate more productive, efficient and sustainable. Backed by real estate and institutional LPs, GSPV has a successful track record of backing, scaling and exiting high-impact PropTech companies.

OTHER INVESTMENT CRITERIA

ESG METRICS

IMPACT INVESTOR

Recent Investment Activity

Greensoil Building Innovation Fund LP (Fund I) (2015) - \$59M USD

Fully invested across 12 portfolio companies, 3 exits, 1 partial realization

Greensoil PropTech Ventures Fund II LP (2020) - \$79M USD

To date invested in 13 portfolio companies, 5 of which are Canadian companies. Expecting up to 2 additional investments

Ongoing co-investment opportunities for LPs and strategic PropTech investors

Portfolio Companies & Exits

Oxygen8 - Vancouver-based innovative high performance ventilation solutions provider. Named 2024 Deloitte fastest growing Canadian Clean Tech company

Miru - Vancouver-based electrochromic window developer raised \$20M USD Series A for pilots in automotive and architectural applications and has entered into joint development and manufacturing agreements with supply chain partners in Europe and North America

Intelligent City – completed a 9-storey apartment constructed using a mass-timber panelized curtain wall system manufactured with a first-of-a-kind robotics enabled automated process.

Luum.io – completed an all low-voltage direct-current powered home, with Canada’s largest condominium builder using their new digital power distribution technology X-PoE

CropX - AI-driven farm management system for sustainable farming

Management Team

Alan Greenberg, Co-Founder and Chairman

A 30+ year veteran real estate owner and developer who ran Minto Urban Communities and was the visionary behind the Minto Green team.

Gideon Soesman, Co-Founder and Managing Partner

Managing Partner at GSPV and also of GreenSoil’s AgTech funds with \$38M under management.

Jamie James, Managing Partner

Managing partner at GSPV since the launch of GSPV I.

David Kolada, Managing Partner

Joined GSPV in 2019, and Fund Manager of GSPV II.

What Makes Us Unique

Greensoil PropTech Ventures’ investment approach is driven by our four-pronged strategy: 1) 100% Focus on PropTech: Use our domain expertise as an advantage to help digitize the world’s biggest asset class. 2) Impact Investing to Transform Real Estate Industry: Each investment will make one or more ESG impacts; at least 2/3 of dollars invested in carbon reduction technologies. 3) Limited Partner & Industry Relationships: Leveraging relationships with strategic LPs and our extended real estate network to validate investment selection and enhance portfolio company growth. 4) Intelligent Portfolio Construction: Balance our PropTech focus with breadth in technology, stage, and geography.

Our \$50M Fund II, focuses on key opportunities in AI-enabled Medical Devices and Digital Health, aligning with our strategic vision.

In 2024, the total investment across rounds we participated in, alongside LPs and other parties, amounted to approximately \$57M USD.

Portfolio Companies & Exits

Exact Imaging (Portfolio): Founded in 2013, specializes in early prostate cancer detection with its ExactVu™ system, the world's first 29 MHz micro-ultrasound platform.

Segmed (Portfolio): Founded in 2019, aggregates anonymized medical imaging data from 1,000+ global sources, advancing AI research and enabling FDA-cleared technologies.

Flosonics Medical (Portfolio): Founded in 2015, developed FloPatch, the first FDA-approved wireless ultrasound for critical care hemodynamic monitoring.

Management Team

iGan's leadership is spearheaded by Founder & Managing Partner Sam Ifergan, with 25+ years of entrepreneurial, healthcare, and venture capital experience.

Dr. Lorena Tora, the CMO, holds a medical degree from Anahuac Mexico University and completed a cancer research program at Harvard Medical School and the Dana-Farber Cancer Institute.

Supported by a robust network, the team provides comprehensive backing, including clinical validation, key opinion, regulatory and commercial activities, solidifying iGan's prominence in healthcare and venture capital.

What Makes Us Unique

iGan Partners is a leading healthcare-focused VC firm specializing in MedTech, Digital Health, and Medical Devices. We partner with founders to commercialize and scale disruptive innovations, leveraging our R&D-intensive ecosystem. Known for our founder-friendly approach, we provide more than capital – we actively support companies through commercialization, regulatory navigation, and strategic partnerships.

With broad experience and balanced perspectives, we deliver capital, value-add, and global impact to all our portfolio companies. Our LPs bring global connections, unlocking access to markets and hospital networks across LATAM, the GCC, and Europe. This network accelerates business development, clinical validation, and global growth for long-term success.

FUNDRAISING/SEEKING LIMITED PARTNERS

CO-INVESTMENT OR SYNDICATE ON DEAL FLOW

GENERAL NETWORKING

Investment Thesis

MKB was founded on the belief in an imminent global economic transformation driven by decarbonization, digitization, and electrification. Initially met with skepticism, this vision is now widely recognized as “climate tech” becomes mainstream. The influx of capital into climate solutions is driven by the convergence of technology, capital, policy, and demand. This transition impacts sectors like the built environment and industrials, introducing dynamics like supply chain realignment and climate change adaptation. MKB aims to leverage its experience to accelerate this transformation.

OTHER INVESTMENT CRITERIA

ESG METRICS

Recent Investment Activity

Since inception, MKB has focused exclusively on fundamental economic sectors, primarily clean energy and mobility. It has made investments through two single-company special purpose investment vehicles, two diversified funds and has made meaningful investments from its balance sheet alongside its investors. Via its SPVs, MKB deployed \$33M and has successfully exited these investments returning meaningful capital to its investors. MKB’s Fund I (2016) and Fund II (2020) invested \$127M in 15 companies, with four successful exits as of year-end 2023.

Portfolio Companies & Exits

In 2023, MKB successfully exited its positions in Miovision, a cloud-based traffic management technology firm, and Communauto, a leading car sharing operator. This followed their earlier exits from Opus One Solution, a smart grid software company in 2021, and Potentia, a commercial solar independent power producer in 2016. Currently, MKB’s portfolio boasts of sector leaders like FLO in EV charging, Bboxx for off-grid electricity, Sense for home energy intelligence, Ample with modular battery swapping, Palmetto in residential solar, Carbicrete for carbon-negative concrete technology, and XNRGY, an energy efficient HVAC solutions provider.

Management Team

Antonio Occhionero, Managing Partner, direct investing, international M&A and banking experience specialized in transportation, focus on corporate strategic planning; Kenneth MacKinnon, Senior Partner, direct investing experience in cleantech and extensive investment banking experience; Chanel Damphousse, Partner, direct investing in built environment, previous experience in real estate; and Jesse Teichman, Partner, direct investing, broad operational and investment experience spanning start-ups to global companies enabling energy innovation, leads energy and industrials investing at MKB.

What Makes Us Unique

MKB is a thematic investor, building on its research and deep sector knowledge across the value chain to maximize returns. MKB focuses on identifying large markets at inflection points, innovative products and services, and scalable business models led by talented and driven management teams whose vision align with MKB’s. MKB helps CEOs transition their operations from venture to growth phase and assists with iterations of strategy, business model and financing structure to support growth and value creation. Overall, MKB seeks to build a focused portfolio, preferring this approach to one that is highly diversified.

Valence Discovery, an AI drug discovery startup, was acquired by Recursion Pharmaceuticals.

Flinks, a financial data gateway, was acquired by National Bank, serving major institutions. Lane transforms offices into connected ecosystems and was acquired by VTS.

Certn delivers efficient background screening for informed hiring decisions, reducing costs and enhancing user experiences. They raised a \$42M Series A+ in 2021 allowing them to achieve a three-year growth rate of 662% with customers in over 200 countries.

Management Team

Mike Cegelski, previously Founder of iBwave, Partner at 500 Startups Canada, and 2015 Canadian Angel Investor of the Year.

Patrick Lor, previously Co-Founder of iStockphoto, Managing Partner at 500 Startups Canada, and recipient of the 2019 Creative Destruction Lab’s Associate of the Year.

Prashant Matta, former Principal at OMERS Ventures, mentor at accelerators, serves on the board at Junior Achievement.

Scott Loong, previously Founder of Covera, Principal at Ferst Capital, and lawyer at Gowlings.

What Makes Us Unique

Panache’s partners, many of whom are former entrepreneurs, possess a deep understanding of the founder journey, excelling in early-stage entrepreneur identification. The portfolio network comprises 150+ founders, fostering peer-to-peer mentorship. Leveraging warm introductions and a vast internal database of 52,000+ external connections, Panache facilitates mentorship and support for portfolio companies from pre-seed to Series B, creating a robust ecosystem for knowledge sharing and collaboration among entrepreneurs who have navigated similar startup journeys.

GENERAL NETWORKING

Investment Thesis

Pelorus VC is a pre-seed and seed-stage fund investing in Newfoundland & Labrador-based technology companies. We are often the first institutional investor, backing founders at the pre-revenue stage. Sector agnostic, our portfolios span B2B software, AI, medtech, cleantech, and more. We prioritize building deep relationships with founders, getting to know them well before we invest and serving as active advisors throughout their entrepreneurial journey. We believe empowering talented entrepreneurs with mentorship and early support is key to success.

Recent Investment Activity

VNL I (2015 vintage) is a USD\$10M fund invested in 10 pre-seed companies. One exit to date, and several companies scaling at the Series A and B stages, including CoLab, Spellbook and Mysa.

VNL II (2021 vintage) is a USD\$20M fund with 9 initial investments to date in companies such as Mantle, SiftMed and Sparrow BioAcoustics.

Portfolio Companies & Exits

We have 11 active companies in our portfolio ranging from Pre-Seed to Series B.

CoLab Software for engineering teams raised a USD\$21M Series B, the second round led by Insight Partners, after 10x revenue growth.

Spellbook, a top legal AI tool, raised a USD\$20M Series A led by Inovia Capital after 10x revenue growth and global expansion.

Clockwork Fox was acquired by Carnegie Learning in 2020.

Management Team

Chris Moyer is Pelorus VC's Managing Partner and part of the founding team. Before Pelorus he started his VC career at GrowthWorks Atlantic. Chris currently sits on the boards of four private, investee companies, and is an active mentor throughout Atlantic Canada.

Sarah Murphy is a Partner with Pelorus VC. She has a background working with early-stage startups and as a founder. She co-authored the Gender Diversity Playbook to help startups build higher-performing teams.

What Makes Us Unique

What makes Pelorus VC unique is our deep commitment to founders starting well before we invest. At the earliest stages of a company, growth is fundamentally tied to the founders. It's normal for us to spend 6 months mentoring and getting to know founders before we invest. Once we invest, we have well established relationships and continue to play an active role as advisors. Our expertise is in helping founders move from ideation to building their initial team, navigating first revenue, and getting to the next stage of growth where later stage funds can support them as they begin to scale.

dcbel raised \$52M grant from the California Energy Commission
Nomic Bio raised a \$42M Series B
Mosaic Manufacturing raised \$28M in growth equity funding
Acorn Biolabs raised an \$11M Series A
Tenstorrent raised a 693M Series D

Management Team

Real Ventures' management team consists of three Investment Partners and three Board Partners, supporting over 120 early-stage tech startups. Our leadership brings over 50 years in venture capital expertise.

What sets our team apart is our commitment to fostering innovation that drives long-lasting, systemic change within the tech and investment ecosystems. We focus on providing founders with the resources, guidance, and networks they need to scale companies that create prosperity for all.

What Makes Us Unique

Real Ventures was founded on the belief that a collaborative startup ecosystem and early-stage funding drive economic growth and societal prosperity. We helped build Canada's startup landscape by launching FounderFuel, Notman House, and recently, RepMatters and Survive the Drive. We also co-founded Front Row Ventures and partnered to bring TechStars to Canada.

Today, we align investments with societal shifts and planetary limits, applying a systems lens to generational challenges. Our approach focuses on founders as people first, supporting their personal growth and entrepreneurial journeys. With our network and commitment to innovation, we help founders scale transformative businesses with global impact.

Relay Ventures is an early stage venture fund focused on four verticals: Urbantech (Transportation & Mobility), Proptech, Fintech, and Sportstech (Sports, Media & Entertainment). Relay primarily focuses on investing in startups that are headquartered in Canada and the United States, but will opportunistically invest elsewhere. Relay writes initial cheques at the Pre-Seed and Seed stage and looks to double down into its most promising companies at the Series A and beyond. Relay reserves capital to partner with our portfolio companies through the life of the business and actively help our companies improve the likelihood of outlier outcomes.

OTHER INVESTMENT CRITERIA

- WOMEN-LED BUSINESSES
- BIPOC-OWNED BUSINESSES

Recent Investment Activity

During the past 36 months, Relay has invested out of its most recent fund in companies like Altrio, Alt Sports Data, Boomerang, Cookin, Dark Slope, Doormat, FCTRY Lab, Friendlier, HomeTeam Live, Mantle, Mave, Promise Robotics, Pronto, Remix AI, Storycraft, The Curling Group, Train Fitness, Veecele, and Woveo. During the past 36 months, Relay has made follow-on investments in companies like Blue J Legal, Good Buy Gear, Mainstay, Mojio, Populus, Sherpa, and The Logic.

Portfolio Companies & Exits

Relay led the first institutional rounds of each of these portfolio companies. As lifecycle investors, Relay continued to participate in later stage rounds in each of these companies and remains active as board members.

- **Ecobee** (Toronto) – initial investment in 2007, acquired by Generac in 2021
- **Prove** (New York) – initial investment in 2010
- **TouchBistro** (Toronto) – initial investment in 2013
- **theScore** (Toronto) – initial investment in 2013, acquired by Penn National Gaming in 2021
- **Greenlight** (Atlanta) – initial investment in 2016
- **7shifts** (Saskatoon) – initial investment in 2016

Management Team

Relay has an experienced team of eighteen professionals led by five partners with more than 100 years of collective experience in early-stage venture investing. John Albright and Kevin Talbot co-founded Relay Ventures in 2008 and since then have been its Managing Partners. Alex Baker joined Relay in 2008 as Partner and has since been promoted to Managing Partner where he is involved in sourcing and managing investments. Irfhan Rawji joined Relay as a Venture Partner in 2016 and has since been promoted to Managing Partner, transitioning from his role as CEO of MobSquad. Jeannette Wiltse has been with the firm since inception as a Partner and CFO where she manages the finance and operations functions. Geoff Beattie has been Non-Executive Chairman since 2013.

What Makes Us Unique

1. Relay has always been deep sector specialists. When meeting with companies, we come with a prepared mind and deep understanding of the industry.
2. Relay invests at the earliest stage of a company's life and looks to continually follow-on through multiple funding rounds. We are hands-on investors with strong conviction to concentrate capital in our most promising companies.
3. Relay primarily gains conviction through investing in top tier founding teams addressing opportunities in markets in which we are well versed. By having deep knowledge of the market, we believe we can see opportunities where others cannot.

Investment Thesis

Sandpiper Ventures is a seed and Series A stage venture capital firm based on the east coast of Canada. We invest in tech companies with women identifying and non-binary founders in the C-suite with equitable ownership, as an underrepresented demographic that is over-performing. We are industry agnostic, but make our investments in companies where our experience and networks are relevant, focusing on companies building technologies to solve complex problems related to Healthcare and Wellbeing, Environment and Community and the Future of Work and Education. We create funds that deliver a reliable return by investing in founders and start-ups that are intent on changing the world around them. We build on our investment and provide the business acumen and hands-on support that is proven to increase their chances of success in the marketplace. Sandpiper is a deliberate investor, we have invested Fund I into 13 seed-stage companies, evaluating each investment against its potential to return the entire fund.

OTHER INVESTMENT CRITERIA

- WOMEN-LED BUSINESSES
- BIPOC-OWNED BUSINESSES
- ESG METRICS
- IMPACT INVESTOR

Recent Investment Activity

Sandpiper has made thirteen seed-stage investments from Sandpiper Fund I, which closed in 2022. Initial investment have been between \$500k-\$1M, keeping 60% of the fund for follow-on. We have followed on to date in six of those companies to retain ownership, based upon strong performance against milestones. The firm is now investing capital out of Fund II.

Management Team

Our management team consists of three GPs supported by an Investment Principal and a Senior Investment Analyst, a Director of Marketing and Community (fractional), a CLO (fractional) and a CFO (fractional). We creatively use the limited resources of a small fund to attract the right talent and build the infrastructure to support larger/multiple funds as we grow. Our Investment Committee is comprised of our three GPs, who jointly make all investment decisions, and augmented by industry and VC experts depending upon the company under evaluation. Our GPs are entrepreneur operator CEOs with multiple exits and decades of investment, M&A, international expansion, company building, scaling and governance. [Cathy Bennett](#), GP with lead responsibility Operations, HR, Finance, [Rhiannon Davies](#), GP with lead responsibility Investment and Portfolio Development and Investor Conversion, [Sarah Young](#), GP with lead responsibility Marketing, PR, Network Activation, Strategic Partnerships and Investor Relations.

What Makes Us Unique

We are an operator driven fund, our management team and active advisors are well connected Canadian business leaders, ex-CEOs, with deep international industry and operations experience, providing access to unique deal-flow and the tools and networks to support our portfolio companies. Our GPs have built companies from scratch, scaled companies into new markets, developed talent, failed and succeeded in M&As, and executed multi-billion \$IPOs. We have taken these companies successfully through volatile and adverse market conditions. We are bringing access to capital and the resources that our founders need to be successful in global markets, particularly with today's market conditions.

Recent Investment Activity

Fund I: Since inception, the Fund has invested in 22 companies, which include a balance of pre-seed, seed and Series A stage companies. 86% of Fund I's investments are in Canadian companies, and 100% having diverse employees on their management team.

Fund II: Since inception, the Fund has invested in 10 companies, which include a balance of pre-seed and seed stage companies. 90% of Fund II's investments are Canadian companies, and 100% having diverse employees on their management team.

Portfolio Companies & Exits

Since inception, The51 has proudly partnered with standout women-founded ventures across Canada and the US, such as **Virtual Gurus** (Calgary), led by Bobbie Racette, an Indigenous, LGBTQ+ founder, and **Ayrton Energy** (Calgary), co-founded by Natasha and Brandy. Other investments include **Blume Drinks** (Vancouver), **Jombone** (Toronto), **MyFO** (Vancouver), **Cadence** (Saskatoon), **NL Patent** (Toronto), **Retellio** (St. John's), and **Sprout Family** (Toronto).

Management Team

The51 GPs and team has deep experience as trend-spotters, venture capitalists, entrepreneurs, company builders, c-suite executives, engineers and impact investing experts. The51 GP's also maintain close relationships with 250+ LPs and industry experts within The51 network, many of whom are corporate executives and decision makers, exited entrepreneurs and operators to support the portfolio.

What Makes Us Unique

The51 drives innovation, fosters economic diversification, and creates access and opportunity for women across Canada and the US through venture capital, entrepreneurship support, and enhanced financial literacy for a more inclusive ecosystem. The51 believes in harnessing the power of our collective (300+ coast-to-coast LP investors – 90% women - and a community of over 35,000) —the intellectual and human capital of the 51%, which makes us all better investors, entrepreneurs and consumers. Together, alongside GP expertise and leveraging the human capital of our community, we're powering diverse, innovative companies.

Recent Investment Activity

TSFV Fund III is a US\$30M fund currently deploying funds with 10 investments already made. TSFV Fund II is a CAD\$12M fund that includes 23 companies with 3 exits. TSFV Fund I – our syndicate investment vehicle – backed 20 companies and has achieved a remarkable 16x MOIC.

Portfolio Companies & Exits

Story (TSFV Fund III) raised a US\$80M Series B with a valuation of US\$2.25B. **Printify** (TSFV Fund II) raised an additional \$54M in funding and recently merged with Printful. **SkiptheDishes** (TSFV Fund I) delivered a 12x return on our investment after the company was acquired for \$200M.

Management Team

One of the few women leading a venture fund in Canada, General Partner Eva Lau leverages her engineering, AI, and semiconductors background to spot tech giant-in-the-making. Operating Partner Allen Lau supports founders by leveraging his experience as the former CEO of Wattpad where he scaled the company to 100M users and secured \$120M in venture funding before a landmark exit. Partner Brandon Zhao is a data visionary focused on deep tech investments, including AI and protocols.

What Makes Us Unique

TSF is a uniquely qualified venture firm. Each Partner is an engineer by training with deep domain expertise and extensive entrepreneurial, operating, and technical experience. Our superpower lies in our ability to see the future. The TSF team consistently identifies groundbreaking tech giants—and writes first cheques to them—before they reshape their industries. Our focus is to empower Pre-Seed and Seed-stage founders, tailoring our approach to what works best for them. Investing is more than writing a cheque; we only invest when we possess the domain expertise necessary to help a startup scale.

Investment Thesis

Vanedge uses a repeatable approach to generate superior returns. We focus on early-stage companies and opportunities based on emerging major technology trends. These themes include Next-Generation Analytics and Disruptive HardTech Platforms.

We select companies within these themes that have a long-term sustainable technology advantage and that have the potential to become market leaders. We invest prior to major value-creation milestones, and help our companies build their organizational structure and capabilities to navigate the growth they will experience due to technology inflection points in the market overall.

OTHER INVESTMENT CRITERIA

IMPACT INVESTOR

Recent Investment Activity

Fund I – \$100M (2010) – \$69M invested in 20 portfolio companies. The Fund has had 9 exits.

Fund II – \$118M (2016) – \$85M invested in 20 companies and holds reserves to support these portfolio companies. Fund II has exited three companies (Canalyst, Quantum Benchmark, Bitfusion).

Fund III – \$81M (2020) – \$26M invested in 10 companies. Fund III has one exit, Raxium, which sold to Google 12 months after the Fund invested.

Portfolio Companies & Exits

Canalyst – acquired by Tegus, a Chicago-based financial intelligence firm serving institutional investors. Fund II first invested in Canalyst as its initial seed investor in 2016 and remained the largest shareholder at the exit. The Globe & Mail reported the transaction value to be greater than \$400M.

Raxium – developed the world's first monolithic MicroLED for use in electronic displays including AR and VR. Fund III co-led a US \$65M round in Raxium in April 2021. Raxium was bought by Google on May 4th, 2022. Terms of the transaction were not disclosed, but Pitchbooks reports the transaction value at \$1B US.

Management Team

The Vanedge investment team has a track record of building and growing successful companies as entrepreneurs and operating executives, of developing innovative and industry-leading products as technologists, and of delivering market-leading returns as investors.

FUNDRAISING/SEEKING LIMITED PARTNERS

GENERAL NETWORKING

Investment Thesis

Vistara Growth provides flexible growth capital solutions to mid-later stage technology companies across North America comprised of debt, convertible debt, structured equity, and combinations thereof. Vistara Technology Growth Fund V LP was launched in late 2023 targeting US\$400M with over 50% recommitted from prior fund LPs as of the end of 2024. Founded, managed, and funded by seasoned technology finance and operating executives, "Vistara" (Sanskrit for "expansion") is focused on enabling growth for the ambitious entrepreneurs we invest in, our investors, our people, and the communities we operate in.

Recent Investment Activity

Since our inception in 2015, Vistara has deployed over US\$450M across 40 investments, achieving 20 successful exits with zero losses. Vistara funds have been recognized among the Top 10 Globally, as highlighted by PitchBook Benchmarks (Funds II, III, IV – Q2 2024) and the 2024 Preqin League Tables (Funds II, III).

Portfolio Companies & Exits

Select Examples of Recent Exits:

- **Zafin** acquired Feb 2024 by Nordic Capital
- **Skytap** acquired Apr 2024 by Kyndryl (NYSE: KD)
- **VALD** acquired Jun 2024 by FTV Capital
- **Vyopta** acquired Jun 2024 by HP (NYSE: HPQ)

Select Examples of Portfolio Companies:

- **Brim** – Credit card software platform
- **Kore.ai** – AI platform for CX / EX
- **Integral** – FX Workflow Platform
- **Clariti** – Govtech Software

Management Team

Vistara has established a highly successful track record in providing dozens of leading technology companies with flexible growth capital solutions. Some key areas of sector expertise on the team include fintech, AI/ML, healthcare IT, cybersecurity, and cloud/IT infrastructure. Our investment team is led by senior team members:

- Randy Garg** - Founder & Managing Partner
- Noah Shipman** – Partner
- John O'Donoghue** – Principal
- Neil Kenley** – Principal
- Kevin Barber** – Associate Partner
- Gaurav Singh** – Chief Financial Officer

What Makes Us Unique

Vistara is able to invest across the capital structure as Debt and/or Equity filling an increasing gap in the market between traditional bank lenders and venture capital for mid-later stage technology companies. Our size of investment typically ranges from US\$10-30 million per company, with flexible use cases including funding organic growth, runway extension between rounds, M&A, and secondary financings. We provide both founder controlled and sponsor-backed companies with significant optionality in accessing the right form and amounts of capital at the right time. With this flexibility, founders, management teams, and existing investors can "Own Their Growth" and minimize dilution while maximizing growth potential.

White Star Capital is an international technology investment manager led by entrepreneurs that invests in exceptional founders building ambitious, international businesses. Our Early Growth Fund invests in technology companies at Series A and B, while our Digital Asset Fund invests in crypto networks and blockchain-enabled companies across Seed, Series A, and token rounds.

OTHER INVESTMENT CRITERIA

ESG METRICS

Recent Investment Activity

Raised in 2021, White Star Capital's \$360M Fund III backed 18 companies. Fund II, raised in 2018 with a size of \$180M, made 17 investments and has achieved four exits so far, while Fund I, raised in 2014 at a final close of \$70M, made 18 investments with ten exits to date. The firm is now investing out of Fund IV which will hold a final close in 2025.

The firm's first specialist \$50M Digital Asset Fund raised in 2020, made 20 investments and achieved one exit to date. Digital Asset Fund II, which closed in 2023 at \$60M, has already made 17 investments.

Portfolio Companies & Exits

White Star Capital's current investments feature Vention, FINN, Flare, Butternut Box, and Ledin, with several recent IPOS and exits including:

- **Dialogue**, Canada's premier virtual healthcare and wellness platform, was acquired by Sun Life for \$365M in 2023.
- **Freshly**, a Fund I returner, was acquired by Nestle for \$1.5B in October 2020.
- **Mnubo**, was acquired by Aspen Technologies for C\$115M in July 2019.

Management Team

Eric Martineau-Fortin, Managing Partner, founded White Star Capital following two decades of global Investment Banking, PE and VC experience.

Jean-François Marcoux, Managing Partner, joined Eric as co-founder with extensive experience as an entrepreneur and investment professional, having previously co-founded mobile gaming company Ludia.

Christophe Bourque, General Partner in Montréal, Eddie Lee, General Partner in New York, Sanjay Zimmermann, Partner in Toronto, and Alberto Lopez Toledo, Partner in New York, complete the North American management team.

What Makes Us Unique

We are a multinational team of founders, operators, advisors and investors. Brought together by a collective international perspective, and our extensive experience with startups, we operate at a local level but connect on a global basis, enabling us to empower globally-minded founders with the capital, network, and hands-on expertise to create successful tech-enabled businesses and lasting value.

With a team of 50 across North America, Europe, and Asia, we currently have seven investment professionals based between Montreal and Toronto.

GENERAL NETWORKING

Investment Thesis

Yaletown’s investment thesis focuses on the Intelligent Industry investment opportunity, targeting emerging-growth technology companies disrupting and transforming traditional sectors. We leverage trends in digitalization, automation, and transformation, emphasizing software, AI/ML, and IIoT. These technologies drive productivity, efficiency, and modernization while reducing climate impact and environmental risks. Our strategy supports solutions that optimize processes, pre-empt risks, and scale innovation, creating strategic market value. By aligning investments with these principles, we enable industries to evolve sustainably and thrive in a rapidly changing world.

OTHER INVESTMENT CRITERIA

ESG METRICS IMPACT INVESTOR

Recent Investment Activity

Yaletown has invested more than \$129 million across \$1.2 billion in financings into 30+ companies in just the last 36 months. Our funds have successfully exited over a dozen companies, contributing to exit values exceeding \$750 million from just 4 exits in the past 3 years.

Portfolio Companies & Exits

Select portfolio companies include **EdgeQ** (software-defined chips for industrial/edge computing), **Group14** (silicon-carbon batteries for lithium-ion markets), **GoBolt** (electric fleet last-mile delivery), **Climate.ai** (climate risk prediction), and **Platform Technology Group** (real-time asset orchestration). Exits exceed \$1B, including **Bit Stew** (MoIC 4.3x, IRR 97%), **Monexa** (MoIC 3.7x, IRR 114.9%), and **Good Natured** IPO (MoIC 4.8x).

Management Team

Yaletown’s management team has worked closely together over the last 14 years developing and implementing the firm’s investment strategies. A “team of peers” relationship exists among them, based on complementary yet diverse skills, backgrounds and perspectives, mutual respect, and shared views regarding entrepreneur-centric venture investing. The investment team includes five Partners, two Venture Partners, one Investment Manager and four Associate/Analysts who collectively bring more than 100 years of technology-industry experience. Among them, they have more than \$1 billion in exits.

What Makes Us Unique

Yaletown highly values diversity and inclusivity for organizational benefits. We take pride in our diverse workforce, with 73% of all employees and 53% of our investment team being from racial or ethnic minorities, and 64% of all employees and 46% of the investment team identifying as women. Recognizing the impact of ESG issues on private equity investments, we craft a custom roadmap to guide our companies in understanding ESG’s influence on their business, addressing related risks and opportunities, and enhancing decision-making. Our commitment to diversity and proactive approach to ESG underscores Yaletown’s dedication to a progressive and inclusive corporate culture.

The Emerging Managers Building the Future of VC in Canada

Canada's venture capital ecosystem is increasingly shaped by a diverse and growing cohort of emerging managers. Leading early-stage funds, these investors bring fresh perspectives and strategies, playing an important role in uncovering opportunities and fueling investment in transformative sectors like technology, clean energy, and healthcare. Their ability to navigate evolving market conditions with agility positions them as critical players in fostering innovation, creating jobs, and contributing to economic diversification.

Emerging managers represent a compelling investment opportunity, often outperforming their established counterparts in terms of returns. Research consistently highlights their ability to deliver superior outcomes; data from PitchBook reveals that nearly 18% of first-time funds achieve an internal rate of return of at least 25%, compared to only 12% of later funds surpassing this benchmark.

Explore the emerging managers featured in this year's edition of The 50, chosen for their vision, innovation, and ability to shape the future of Canada's venture capital ecosystem.

Scott Kaplanis (Managing Partner): Active venture investor and capital markets professional with 20+ years evaluating and supporting emerging businesses.

Tyler Ashby (Principal): 10 years in-field engineering, construction, and consulting experience followed by 8 years in venture with a focus on prop tech and construction tech.

Fionnuala Hogan (Strategic Advisor and Planned Head of Europe): 25 years of international experience in venture capital, M&A, entrepreneurship, and commercial financing in real estate.

What Makes Us Unique

GroundBreak Ventures uniquely focuses on the residential housing space at a pivotal time when global housing supply shortages and cost-of-living challenges demand urgent solutions. Despite the critical need, support for emerging technologies in this sector remains limited. GroundBreak bridges this gap by leveraging deep expertise, global networks, and impactful partnerships, such as with the globally recognized Property Brothers. Its hands-on approach combines venture building, strategic guidance, and scalable solutions. GroundBreak Ventures, in collaboration with DMZ — the world-leading tech incubator based at Toronto Metropolitan University — have some exciting partnership announcements coming out this year. Stay tuned for more!

Investment Thesis

Leva Capital invests in healthcare startups at the pre-seed and seed fundraising stages. Our focus is on fostering innovation within the healthcare industry by backing ventures that improve current standards of care or introduce entirely new solutions. We start with initial pilot investments and work closely with founders, providing follow-on investments as the startups grow. With our extensive network and experience in the healthcare sector, we offer the expertise and strategic capital necessary for our portfolio companies to thrive.

OTHER INVESTMENT CRITERIA

ESG METRICS

Management Team

Leva Capital is led by Managing Partner Eddie Gobran, an entrepreneur and mentor at CDL with extensive experience in capital markets and business strategy. Matt Girgis, a Partner and Advisor, is a C-level executive at a global automotive manufacturer with experience in angel investing and healthcare practices. Both have strong connections within the healthcare community.

Our team is supported by Venture Advisors Murray Neal, Peter Azmi and Steve Leonard, who bring a wealth of expertise in science, regulation and IP.

What Makes Us Unique

Leva recognizes the growing gap in early-stage venture capital and is committed to bridging this gap by providing both financial capital and industry expertise to healthtech entrepreneurs. Our team has established strong connections with leading physicians, surgeons and healthcare practitioners throughout Canada, particularly in Ontario.

As a value-added investor, we offer hands-on advisory support in areas such as regulatory matters, intellectual property, and business strategy. CEO's in our portfolio have seen direct and measurable positive impacts to their business, financing, IP, regulatory and commercialization strategies, as a direct result of Leva's network and support. Leva has developed a unique infrastructure and support system for early-stage healthcare ventures, preparing them for growth-stage financing.

Management Team

Nàdarra’s Team are former founders and global operators that bring award-winning entrepreneurial, venture investment, and scientific innovation expertise to identify, invest, and support Canada’s leading companies.

Malcolm Fraser, Managing Partner has founded and exited companies, managed acceleration and incubation programs, and recently led one of Canada’s most successful early-stage venture capital funds, Innovacorp.

Mary Dimou, General Partner is a global agri-technology and life sciences investor, former founder, and scientist that has managed leading corporate, institutional, and public venture capital funds.

What Makes Us Unique

Nàdarra Ventures stands out with its Canada-first investment thesis committed to investments in deep technologies by sustainability-driven Canadian innovators tackling issues of food insecurity and climate change at a global scale.

- **Thesis-driven:** We deploy an equitable investment strategy and are focused on sustainable naturally-derived agricultural biotechnology at the seed and series A stage of development and fill a well-known funding gap for Canadian innovators
- **Proprietary pipeline:** We have a strategic relationship with Natural Products Canada, a national innovation cluster for natural products, which provides proprietary access to investment pipeline, a national team of experts, and market and technical expertise.
- **Founder-First Management:** Nàdarra’s Partners are former entrepreneurs that have extensive experience raising capital, managing investments, and achieving successful exits of companies of all stages and sizes across agriculture, life sciences, and technology sectors. Together, we have helped Companies achieve over \$500MM in exits.

Northside Ventures is an early stage venture capital fund investing in extraordinary Canadian founders across North America at the pre-seed and seed stage. Northside is backed by both institutional LPs like Bain Capital, iNovia Discovery Fund and Intact Ventures who can provide follow-on capital to it's portfolio companies and over 50 successful operators and exited Canadian founders with a deep network across multiple verticals. Investment focus areas include B2B software, vertical AI, fintech and cleantech.

Management Team

Alex McIsaac is the Founder and General Partner of Northside Ventures and brings 13+ years' experience as both an operator and early-stage investor. He led the Canadian investment practice as a Partner at Global Founders Capital, a European multi-stage venture fund with \$3B+ AUM. At BDC Capital, the largest venture investor in Canada, he helped manage the seed fund and women in tech fund. Prior to his career as an investor, Alex co-founded NRStor in 2012, an energy storage focused cleantech start-up that was acquired by Blackstone Energy in 2018. Alex holds a BScH from Queen's University and an HBA from the Richard Ivey School of Business.

What Makes Us Unique

Northside helps fill a gap in the Canadian venture capital landscape by taking an institutional angel investor approach to early stage investing backing founders at the point of ideation and company inception. Northside invests with a founder-first mentality, reaching conviction with agility and efficiency, and supports founders by extending our deep international network of customers and follow-on investors to help founders grow zero to one and raise their subsequent round of capital.
